VOLUME XIX, NUMBER 90 — LA CROSSE, WISCONSIN, TUESDAY, AUGUST 14, 1923 — TWENTY PAGES — PRICE THREE CENTS

COAL MEN ACCEPT GOVERNMENT OVERTURES

ANNOUNCE SIX CENT DROP IN GASOLINE HERE

Standard Oil and Independent Companies Announce Reduction in Price on Tuesday; C. of C. Acts Monday

DEPARTMENT OF JUSTICE TO PROBE GASOLINE SITUATION

Independents of Wisconsin to Meet With State Officials Wednesday

FOLLOWING a meeting of the board of directors of the Chamber of Commerce with local wholesale oil dealers Monday afternoon, a cut of 6.6 cents a gallon was announced by all local concerns on Tuesday morning. The action of the Chamber of Commerce in calling the meeting was taken after a meeting of the board of directors at 11:30 Monday morning, at which time it was decided to call in the oil dealers in the afternoon.

C. of C. Meeting

At 2:30 Monday afternoon the meeting with the oil men was held. At that time a resolution was read by the Chamber of Commerce directors calling for a reduction in the retail price of gasoline. Figures compiled by the Chamber of Commerce show that the price of gasoline delivered wholesale in La Crosse is now, and has been for some months past, about 12 cents a gallon, and that the price charged at the filling stations for the same gasoline has been in the neighborhood of 24 cents a gallon. The Chamber of Commerce points out that the total cost of production, refining, transportation, etc., is only equal to the amount of gross profits made by the local dealers. In other words the 12 cents a gallon is added after the tank car has been "spotted" in La Crosse.

New Prices

The Standard Oil company was the first to announce the reduction in the price of gasoline on Tuesday morning. A total of 6.6 cents per gallon was taken off the Standard Oil price, which makes Red Crown retail for 17.2 and Solite for 20.2. Other companies announced the following rates for gasoline: National Refining company 20.5 for White Rose; Interstate 17.2 for Star, 19.5 for Magic and 24.5 for Motorite; Perfect Oil company, 17.2 for Pure Oil and 19.5 for Energy. The Westbrook company was unable to announce their price Tuesday morning, not having had word from their St. Paul offices.

Mayor Takes Up Gas Question

Mayor J. J. Verchota took up the matter of reduction in gas prices with City Attorney Swennes on Monday with a view to petitioning the state for a reduction. However with the cut already in effect, no further action on the part of the city was foreseen at this time.

Price Cut Is General

CHICAGO— By The Associated Press.—Reductions in gasoline prices, begun when Governor W. H. McMas-

FRANCE TO REJECT BRITISH PROPOSALS

CLOUDBURSTS TAKE TOLL OF 12 LIVES IN NORTHERN UTAH

SALT LAKE CITY, Utah.—Twelve lives are believed to have been lost in Northern Utah as a result of cloudbursts Monday night and early Tuesday. Property damage is expected to total upward of $1,000,000.

Four persons are known to be dead at Farmington, Utah, just north of Salt Lake City; two men and a woman are reported dead at Willard, Utah, and five boy scouts are reported to have drowned in a canyon east of Farmington.

The cloudbursts preceded by a severe electrical storm, tore down the telegraph poles and hence communication is crippled.

LA CROSSE GUARDS RETURN FROM CAMP MONDAY AFTERNOON

Citizen Soldiers Arrive Back in the City After Two Weeks of Military Training

La Crosse's citizens soldiers are back in the city.

Tanned, dusty and tired, but thoroughly satisfied with their two weeks of intensive military training, at Camp Douglas, the boys arrived back Monday afternoon shortly after 4 o'clock, unloaded their equipment and marched to their respective armories, to be lined up, dismissed and again take their places as citizens in the community.

The troops entrained at Camp Douglas at noon on Monday and came directly to La Crosse in a special train. The units which represented La Crosse at the camp are Batteries A and B, Headquarters company and Combat train, and the medical detachment; all of the 120th F. A., W. N. G. Major Stanley Gordon of La Crosse was in charge of the first battalion of the 120th F. A. at the camp, and Major W. E. Bannen commanded the medical units of the regiment.

MERCHANTS PLAN DOLLAR DAY SALE NEXT THURSDAY

Midsummer Bargains are Advertised in this Issue of The Tribune

Today's issue of The La Crosse Tribune and Leader-Press is the medium through which the merchants of La Crosse are announcing the midsummer Dollar Day, which is to be held Thursday, August 16.

Coming as it does, "between seasons," the midsummer Dollar Day carries more than ordinary significance. Stocks are being cleared to make room for fall merchandise and thrifty buyers know that extraordinary values will greet them when they make the rounds of the stores Thursday.

The advertisements in today's issue form a reliable directory of Dollar Day bargains. Many people follow the practice of making up their shopping list from the advertisements, thus saving time and labor.

CONDEMNATION OF LAND FOR ROADS IN COUNTY COURT

Condemnation proceedings for two road projects, state and county, were started by the state road and bridge committee of the county board in county court Tuesday morning. One case was settled in the morning and the other adjourned until afternoon. Charles Fisher and the road committee came to an agreement on the relocation of State Highway No. 108, north of Burr Oak. The case still pending is that of Amund Ambrosen and Engebret Settinsgar over the relocation of the Bohemian Coulee road, town of Washington.

LEGION COMMANDER TO BE MADE CHIEF OF CHIPPEWA TRIBE

SUPERIOR, Wis.—Alvin N. Owsley, national commander of the American Legion, is to be made a chief of the tribe of Chippewa Indians here Wednesday.

The ceremonial, conducted by 100 Indians from the Couderay reservation in full paint and costume, will precede a public address by the legion head. A tribal dance will open the festival, after which he will be adopted by the tribe. He then will be raised to the rank of chief with attendant ceremonies, including the bestowal of an Indian name.

U. S. HOLDS BALANCE IN REPARATIONS CONTROVERSY SAYS POINCARE MESSAGE

GERMANY DEMANDS RIGHT OF CONTROL OVER RUHR REGION

Stresemann Outlines Conditions Under Which Germany Will Abandon Resistance

INCREASE IN MOB DISTURBANCES ARE NOTED THROUGHOUT REPUBLIC

Score Killed in Hanover; General Strike in Berlin Called off

BERLIN—By The Associated Press—Dr. Gustav Stresemann, the new German chancellor, outlined in a statement Tuesday the conditions under which Germany is ready to abandon the passive resistance in the Ruhr. The conditions are the complete restoration to Germany of her right of control over the Ruhr, re-establishment of the conditions in the Rhineland vouchsafed her under the Versailles treaty and the liberation of every German citizen who has been outraged, evicted or imprisoned.

The statement was made in his inaugural speech to the reichstag. He made no mention of evacuation of the occupied areas, merely stressing the conditions under which Germany is prepared to enter negotiations for the complete restoration of her jurisdiction and the freedom of her citizens there. He was cordially greeted by the majority of the house, the only jarring note being in the form of boisterous heckling by the communists.

Disorder Increasing

BERLIN—By The Associated Press—With late reports indicating an increase in the mob disturbances throughout Germany, Chancellor Stresemann and his government faced another anxious day this morning.

During the night came rumors that twenty persons had been killed in Hanover, and fifteen in Zeitz, Saxony. Rioting was also said to be in progress in Neisse, Silesia.

The city of Hamburg, by proclamation of the senate, is virtually under martial law as a result of the serious clash there yesterday between strikers and police.

So far, the disturbances in Berlin have been of minor nature, and the police have been called into service only to stop plundering or prevent communist agitators from persuading loyal workers to leave their places of employment. However, there is noticable a growing dissatisfaction with food prices and the shortage of staples.

President Ebert has sent a message to Wilhelm Cuno warmly thanking him for his services to the country.

12 Killed in Fighting

AIX-LA-CHAPELLE—By The Associated Press—Twelve persons were killed and more than eighty wounded here Monday night when crowds attempted to storm the police headquarters and rescue prisoners taken during the day when the police broke up a food shortage demonstration.

All the victims were German civilians. In yesterday's demonstrations four Germans were killed and forty wounded. The crowd was composed largely of idle workmen.

Berlin Strike Off

BERLIN—By The Associated Press—The general strike in Berlin was called off by the communists Tuesday morning, all the transportation lines re-opening.

The strike of the Hamburg and Bremen pilots, which has been tying up North sea triffic at these ports, has ended.

TWO HUNDRED WORKERS CUT OFF IN MINE

KEMMERER, Wyo—Two hundred miners in No. 1, mine of the Kemmerer Coal company were entombed Tuesday morning following an explosion, nearly a mile under ground.

The body of a pumpman was found at the seventh entry. Experts declare there is little hope of rescuing the men alive.

NO OCCASION FOR SPECIAL SESSION COOLIDGE STAND

WASHINGTON, D. C.—President Coolidge, at the present time, sees no occasion for a special session of congress in advance of the regular December meeting, it was said officially Tuesday at the white house.

DIPLOMATIC PAPERS ARE MADE PUBLIC BY FRENCH GOVERNMENT

"Yellow Book" Hints at Possible Request to U. S. for Reduction of Debt

POINCARE TO REAFFIRM FRENCH STAND IN REPLY TO BALDWIN

Note to be Courteous But Will Reject British Suggestions

PARIS.—By The Associated Press.—Premier Poincare, who will return to Paris Tuesday night, has informed his collaborators at the foreign office that he intends, "in the most courteous manner possible," to reply point by point to the note of Lord Curzon, British secretary for foreign affairs, on the reparation question. Although the reply will be courteous, it is asserted in foreign office circles that it will be a stout reaffirmation of the French viewpoint and a flat rejection of the British suggestions.

Hint at U. S. Debt Reduction

PARIS.—By The Associated Press.—A "yellow book" of diplomatic documents issued Monday night by the French government brings out clearly that the United States ultimately will be asked by the allies how much of the inter-allied debt she expects to be paid.

This book contains thirty-seven telegrams and letters, most of them between Premier Poincare and French ambassadors. They are dated from May 2 to August 8 and deal with the Ruhr situation, reparations, debts and the British questionnaire.

Premier Poincare puts his position plainly in a June 12 message to the French ambassador in London. He instructs the ambassador, among other things, to tell Lord Curzon, the British foreign secretary, that "it is the problem of interallied debts which prevents us from telling Germany now the exact amount she owes us."

Cites U. S. in Message

The message adds: "The solution of this problem is in the hands of England, first of all, and the United States afterwards. The latter can be approached in a common accord by the allies when they have agreed upon a formula, and it has become evident everything depends only upon the attitude of the government at Washington."

The yellow book was issued as a reply to the British action in announcing that the world would be called upon to judge the present situation with regard to Germany. The documents, which hitherto had not been published, consist mostly of instructions to the ambassadors on how to present the French viewpoint on the situation.

They set out in great detail, and often in the exact language of declarations already made by the premier publicly and emphasize M. Poincare's absolute conviction that Germany can pay, must pay and will pay, because France will follow a policy of making it easier to pay than to stand the pressure in the Ruhr.

Explains Guarantees

Premier Poincare explains his idea of guarantees, suggesting that Germany deliver the Rhineland railways to the allies, give them certain Ruhr coal mines, collect customs in gold for the allies and otherwise co-operate in the payment of reparations.

The premier is firm throughout, however, in his announced policy of compelling Germany to cease resistance, and he refuses to compromise on the occupation of the Ruhr or the amount of reparations, except as compensated by cancellation of inter-allied debts.

Speaking of a committee to determine Germany's capacity to pay reparations, the premier said the experts would simply see the German treasury empty and conclude she could not pay, while France knows she can pay.

In instructions sent to Count de St. Aulaire, ambassador to Great Britain, on June 29, M. Poincare again lays stress on the importance of inter-allied debts in any general plan of reparations.

France Can Not Pay

He declares France would be unable to pay war debts until the devastated regions were reconstructed and the budget relieved of the burden placed upon it by reconstruction loans.

If the British and American governments hesitate to accept Germany's "C" bonds in exchange for debts, M.

NEW JURY PANEL SUMMONED FOR TRIAL OF ARNOLD

SUPERIOR, Wis.—The case of Victor H. Arnold, former president of the Madison Bond company of Madison, Wis., and of the Victor H. Arnold company of Chicago, will be called for trial in federal district court here before Federal Judge Claud Z. Luse, at 10 a. m. Wednesday, following registration of a new jury panel.

Arnold is charged with using the mails to defraud, in an indictment containing thirty-one counts in three general divisions. The charges are said to involve the sum of $750,000. The defendant is now at liberty on $25,000 bail supplied in Liberty bonds by a personal friend.

COOLIDGE TODAY PRESIDES AT FIRST CABINET MEETING

President Discusses Administrative Policies With His Official Advisors

WASHINGTON, D. C.—President Coolidge Wednesday presided over his first cabinet meeting, taking his place at the head of the big cabinet table at whose foot he had sat since the beginning of the Harding administration.

All of those who served as the counsellors of President Harding, except Secretaries Mellon and Denby, met with the new chief executive. Mr. Mellon is in Europe and Mr. Denby is in Michigan.

Secretary Davis, who returned Monday from Europe, called at the executive offices prior to the cabinet session to pay his respects to his new chief.

Many problems incident to the change in administration leadership and policies needing immediate formulation, including the anthracite situation, were understood to be up for discussion. It was indicated that important announcements of policy might result.

SECRETARY OF THE PRESIDENT SENDS LETTER

Acknowledges Telegram Sent to President by Local Legionnaires

A letter of appreciation was received by Robert W. Keyes, commander of the local post of the American Legion, in response to a telegram sent by the post to President Coolidge wishing him success during his administration. The letter was written on black-bordered White House stationery and sealed in a black-bordered envelope.

The text of the letter is:

"The White House, Washington
August 9, 1923.

Mr. Robert W. Keyes,
Post Commander of the
Roy L. Vingers Post No. 52,
American Legion,
La Crosse, Wisconsin.
My Dear Mr. Keyes:

The President has received your kind telegram, and has asked me to express to you and the members of your post, his sincere appreciation.

Such a message is a source of both encouragement and help at this time, and only the urgent press of other matters prevents a personal acknowledgment.

Very truly yours,
E. T. CLARK, Secretary."

CHAS. G. HICKISCH'S NIECE IS BURNED TO DEATH ON MONDAY

Charles G. Hickisch received word Tuesday that his niece Margaret Pick, aged four years, daughter of Mrs. Edwin Pick, of West Bend, was burned to death Monday night at the home in West Bend. Mr. Hickisch has not learned the particulars of the accident which caused the death.

NO DAMAGE AT FIRE MONDAY

No damage was reported at the residence of Mrs. E. A. Gerdle, 907 Adams street, where fire apparatus responded to an alarm Monday evening at 5:35. Officials said an oil stove merely flamed up.

DR. HARDING RETURNS TO HIS OFFICE TODAY

MARION, O. — Dr. George T. Harding, father of the late president, came to his office Tuesday for the first time since the funeral. He said that he was "feeling tolerably well." He is 79.

INSPECTOR DIXON URGES OWNERS OF TRUCKS TO REGISTER

License Plate Inspector Here to Obtain Compliance With New Law

TELLS OWNERS OF THE NEW SCALE OF FEES CHARGED

Scale is Based on the Gross Weight of the Vehicle

OWNERS of trucks, delivery wagons, passenger busses, tractor or trailers in La Crosse are urged to immediately register their machine so that new license plates may be issued and the new fees, effective on July 1, last, assessed, according to R. W. Dixon, state inspector of automobile license plates, who is in the city, calling on owners of motor vehicles who come under the scope of the new law.

"The important feature of this law," said Mr. Dixon, "at this time, is that it requires every motor truck, motor delivery car, passenger automobile or bus used for hire and carrying more than five passengers, every tractor not used exclusively for agricultural purposes and every trailer or semi-trailer of more than 3,000 pounds gross weight, that was registered this year under the old law, whether used on city or country highways, to be re-registered under this chapter at 75 per cent of the new registration rates, less the fee previously paid. The law does not provide for a refund where the fee that was paid is greater than the new one.

Fees Based on Gross Weight

"The fees under this chapter are based on gross weight; that is, the net weight of the vehicle equipped for carrying its load plus its advertised maximum load capacity. For example: A one-ton truck weighing 5,800 pounds has a gross weight of 13,800 plus 2,000; 7,800 pounds, which puts it into the 3 to 4 ton class, and requires a fee of $30, when registered between January 1 and June 30. Between July 1 and August 31, the fee is 75 per cent of the regular rate; after September 1 it is 50 per cent. The 50 per cent discount does not apply to re-registrations this year, since they should be registered as of July 1. The fee for re-registering the one-ton truck here referred to would be $7.50; that is 75 per cent of $30, less $15, the amount previously paid, but the owner must remit $10, which is the minimum fee, according to the law.

"The load capacity in pounds of a bus is found by dividing the total length of the seating space, including the driver's seat, by 20 inches and multiplying this by 150.

Bus Fees Higher

"The fee for registering a passenger automobile or bus is three times the rate for a truck, or delivery car, of equal gross weight.

"A trailer, or semi-trailer, having a gross weight of less than 3,000 pounds need not be registered but if it is over three thousand pounds the rate is one-half that of a truck of equal gross weight.

"Fees: Truck or delivery car:

"Gross weight 1¼ tons or less, $10; gross weight 1¼ to 2¼ tons, $15; gross weight 2¼ to 3 tons, $20; gross weight 3 to 4 tons, $30; gross weight 4 to 5 tons, $45.

"Over 5 tons, $45, plus $5 for each quarter ton or fraction thereof in excess of 5 tons gross weight.

Answers Questions Promptly

"Applicants are urged to give all required information accurately to avoid delay, error or confusion. Fees for automobile and truck licenses should be included in the same check, draft or money order as it causes confusion in the registration office.

"Do not return old number plates until after you receive the new ones. Please state old license number in making application for re-registration."

ONE HURT, CAR IS WRECKED IN SMASH

Joseph Bakalars, riding with Anton Verse in a Buick touring car sustained a badly smashed hand when another car attempted to pass in front of the Buick on the corner of 17th and Cass streets at 8 o'clock Tuesday morning. Verse's car ran over the curb and struck a tree in front of the E. C. Bartl residence. The entire rear end of the car was wrecked.

SAILOR DROWNS

ASHLAND, Wis.—The body of Emil Hanson, a sailor off the steamer Henry Steinbrenner, was found floating near the shore at Lake Park Monday. The body was clothed in a bathing suit and it is supposed the man went for a swim and in diving from a raft struck a rock. His head showed no signs of injury.

RESUME WAGE DISCUSSION AT U. S. REQUEST

Both Miners and Operators Accept Invitation to Meet With Federal Coal Commission

COOLIDGE APPROVES PLAN FOR INTERVENTION BY GOVERNMENT

Seek to Prevent Half in Production Even if Agreement is Not Reached

WASHINGTON, D. C.—The new administration under President Coolidge has approved plans to furnish necessary substitutes to relieve any fuel shortage which might result from an anthracite strike, it was announced today at the White House.

Confidence was expressed that the initiative taken through the coal commission would result in prevention of a strike, but it was emphasized that should a suspension of production become inevitable the administration was prepared to deal with the situation so as to prevent suffering among consumers.

WASHINGTON, D. C.—Members of the federal coal commission Tuesday were completing plans for a meeting in New York Wednesday with representatives of union miners and operators in the anthracite fields, summoned by the commission to renew negotiations. The summons was issued with the approval of President Coolidge after he had been informed of the situation in detail in conference with members of the commission.

An agreement to insure continuance of production after expiration of the present wage contract, whether or not there has been a settlement by that date of the questions over which the two sides are now deadlocked will be the first objective of the commission, it was said, in its efforts at conciliation. With such an agreement obtained, the commission then would be expected to continue mediation in the dispute, concentrating first on the union demand for installation under the new wage contract of the "check off" system of collection of union dues. It was this demand that broke up the conference between union representatives and operators at Atlantic City ten days ago before the wage increase and other demands had even been discussed.

Much Coal in Storage

Despite the present status of negotiations there are several elements in the situation which government officials view as having an important bearing in weighing the possibilities of a suspension of anthracite production. One is the possibility of a large scale substitution of bituminous coal by consumers, bituminous operators having offered to undertake to make available suitable types of bituminous, and another is the usually heavy production of anthracite during the recent months, which is now in storage.

Unions Accept

ATLANTIC CITY, N. J.—John L. Lewis, president of the United Mine Workers of America has accepted the invitation of the federal coal commission to confer in New York Wednesday with the commission and anthracite operators in an effort to avert a strike September 1.

Operators Will Attend

PHILADELPHIA, Pa.—Samuel D. Warriner, chairman of the general committee of the anthracite coal operators, Tuesday announced that the operators have accepted the invitation of the federal coal commission to attend the parley in New York with the coal miners Wednesday.

WISCONSIN JOINS DRIVE FOR REPEAL OF AMUSEMENT TAX

MILWAUKEE, Wis.—Amusement taxes for movies and other entertainments will be attacked by Wisconsin theater owners in an attempt to get the tax law repealed by the next congress. Plans are being discussed here by the Wisconsin branch of theater owners.

Walter F. Rauman, secretary of the Wisconsin exhibitors' association, says Minnesota, Michigan, Illinois and Indiana have begun a campaign against the tax. He believes that when Wisconsin joins the movement, the war time measure will be rescinded.

HARDING PLANNED TO RETIRE SOON CLAIM FRIENDS

President Before His Death Was Considering $25,000 a Year Editorial Job

WASHINGTON, D. C. — When death overtook him, President Harding, although apparently confident of re-election, had begun to formulate plans when he finally would retire from the white house.

At a private luncheon in a Western city, he told some close friends the reasons which had impelled him to dispose of his control of the Marion Star, and discussed the part he expected to take in other fields.

As the story was told, Mr. Harding said that in all probability he would accept an offer of $25,000 a year made by a leading newspaper for editorial contributions. This, he said, would give him a much desired opportunity of getting his views before the people and assisting in solving national and international problems.

He had also open, he added, an offer of $750 for each speech he might deliver after his term.

MILWAUKEE CITY WORKERS ASK MILLION WAGE BOOST

MILWAUKEE, Wis.—Salary increases for city employes aggregating a million dollars a year, will be asked of the common council when it convenes Sept. 4, according to action taken by the city and county employes union.

Employes in virtually every city department will ask for increases. The requests will range from car fare for turn-off and turn-on men in the water department and raises of $35 to $50 a month asked by several employes of the public works department and the building inspector's office. The majority of employes will request smaller increases.

The increase, if granted, will mean an additional $1.50 for each $1,000 of valuation in taxes declared the city clerk.

MOURNING BAND

President Coolidge, sitting at his desk at temporary headquarters, wears a band of black on his arm in mourning for the late President Harding.

To Stimulate the Memory

Anciently, in many parts of France, when a sale of land took place, it was the custom to have twelve adult witnesses accompanied by twelve little boys, and, when the price of the land was paid and its surrender took place, the ears of the boys were pulled and they were beaten severely, so that the pain thus inflicted should make an impression upon their memory, and, if required afterward, they might bear witness to the sale.

Jaw-Breaking Names of Siam

The late king of Siam had for a full name Phra Bae Somdeth Phra Paramindr Maha Chulilongkorn Phra Chula Chum Klo Chow Yu Hua, and this does not include his titles. The king's uncle, however, who was also a prince high priest, had for one name the following collection of letters Pawaratsuwarlyalongkaun.

ADDRESS BY BIRGE OPENS CONVENTION OF STATE BEE MEN

Honey Producers Encamped on Shores of Lake Mendota for Annual Sessions

MADISON, Wis.—Beekeepers attending the Beekeepers' convention and field meet on the University of Wisconsin grounds here were to be welcomed Tuesday by E. A. Birge, president of the University of Wisconsin.

Monday was devoted largely to becoming acquainted. During the day automobiles carrying those interested in the industry from all sections of the state, and from adjoining states, and late in the afternoon, the tented city, located near the agricultural buildings on the shores of Lake Mendota had taken on much of the appearance of a bee hive.

Dozens of tents have been placed to accommodate the five hundred persons who are expected to attend the week's meeting. Nearly all are furnished with cots and bedding, and others are being used for display purposes and meetings, and one of the largest on the ground is the kitchen.

Another tent, which is the center of much interest is the dining room, where regular meals are served.

In addition to a daily program of at least a dozen talks and added demonstrations, the beekeepers are scheduled each day for a 4:30 p. m. swim. This, being part of the official program, is expected to be followed as carefully as the speech making.

When night fell many camp fires lighted the lake shore. Tuesday the program begins at 9 a. m. with L. E. Noland of the University of Wisconsin heading a list of twelve speakers who will discuss the care and handling of bees.

TOMAHAWK FAIR BODY PLANS DRIVE FOR $1,500

TOMAHAWK, Wis.—The Tomahawk Agricultural society will wage a campaign on Tuesday to raise $1,500 to make up the shortage of funds which will be necessary to carry on the activities of the society. These include land clearing work and boys' and girls' club work, for which a total of $3,000 will be needed, and the Tomahawk community fair, for which $2,950 will be required.

COURTMARTIAL 2 FOR AMPUTATING PRIVATE'S LEGS

WASHINGTON, D. C.—Courtmartial Cook and Capt. Samuel Maj. George Cook and Capt. Samuel C. Gwynn, retired, both of the army medical corps, on charges of malpractice, were ordered Monday by Maj. Gen. Helmick, inspector general of the army, and Surgeon General Ireland. The trial, which is expected to begin next week, was ordered after an investigation into the treatment given Private Guy Pendleton, whose legs were amputated while he was in the hospital at Camp Eustis, Va., which at the time was in charge of Maj. Cook.

Capt. Gwynn was in charge of the surgical department. Pendleton received injuries to both legs, according to those who made the investigation, in an automobile accident. After three months' treatment the amputation was performed.

The operation, according to the investigators' findings, occurred a year ago. Since then Capt. Gwynn has been retired.

Wile Bros. 116 N. 3rd St. MEN'S WOMEN'S AND CHILDREN'S CLOTHING CASH OR CREDIT

ACCUSE GASOLINE MEN OF GIVING SHORT MEASURE

CLEVELAND, O.—Warrants were issued Monday for nineteen gasoline dealers charging them with giving short measure. According to Fred Caley, secretary of the Cleveland automobile club, motorists here are being robbed of approximately $750,000 annually by this means. Shortages in the nineteen instances ran from a quart to a gallon in five gallons.

HEAL MY SOUL

LORD be merciful unto me; heal my soul; for I have sinned against Thee.—Psalms 41: 4. Abstain from all appearance of evil.—1 Thessalonians 5: 22.

Crisis

WHAT will be the next step in the Ruhr controversy, following England's savage note to France and Belgium, does not now appear. Ten years ago, the newspapers would be clearing decks for war extras when one power talked to another as Great Britain talked to France. But since that time the world has experienced the greatest struggle of the ages and the jingoes know better than to preach war. Every move short of war will undoubtedly be taken on either side, but the people are not ready for war, and the chances are very much against a fight.

The British note deals almost entirely with the reparations and Ruhr problems, and the related matter of inter-allied debts. Nevertheless it is not these that is the mainspring of the quarrel. Reparations, the Ruhr, debts alone would not have wrecked the entente. The cause is the deeper and more fundamental issue of continental leadership. Great Britain, since the Napoleonic wars, has been the dominant power in Europe. Since the signing of the peace treaty she has lost that position to France. The struggle is a renewal of the age-long contest between the two most prominent powers of Europe for the place in front. It is, in its essence, a struggle of British trade and financial power against French militarism. The British have powerful levers which they give notice will be applied with all their force. The French have the army and the air navy to protect them in any policy they choose to adopt. Where the contending forces will meet for the pitched struggle which will decide the issue is hard to foretell, for neither is able to force battle in the field where it has supremacy. But the forces of both will be in play without concealment or subterfuge henceforth.

It must be admitted that Stanley Baldwin, premier of Britain, displayed courage in his action. Despite the reluctance of the people in every nation to engage again in war, his note was of such challenging and defiant tone and content that the possibility of it being taken as a casus belli must have been envisaged. And Britain is not in a position to fight France. She has not the army, her navy is of little use against a self-contained land-power, and the French have an enormous superiority in aircraft which makes the aerial invasion of the tight little island an entirely feasible operation. One may gauge the importance which is attached to the struggle with France by the risk which Baldwin accepted in framing his note.

Horse Lore

WHAT we call a "nightmare" got its name because our ancestors believed it was a visit from the Saxon demon, Mare, a vampire supposed to sit on the chest of its sleeping victims, half strangling him and causing fearful visions. This bit of information is from a new book, "The Horse in Magic and Myth." M. Oldfield Howey wrote it. In 1923 we know that a nightmare is a psychic-nervous condition, its cause ranging all the way from excessive glandular activity to eating combinations like oranges and buttermilk.

Superstition dies hard. But it is dying.

The reason Anglo-Saxons rarely eat horse flesh is because this article of diet originally was forbidden by their religion, according to Howey. The horse was especially protected on account of its value in battle. The theory or system apparently must have been to eat only the animals that could not be rushed away from an oncoming invader, and to keep the horse for flight or pursuit, for there is no logical reason why we shouldn't eat horse flesh as much as beef or lamb or pork—except for the taste. Food prejudices are queer. Only an epicure or an oriental can eat snails or grasshoppers without shuddering.

The wooden hobby-horse, delight of many generations of children, was used a lot for sport by grown-ups in the Middle Ages, Howey says. Then the Puritans—blue law enforcers of their day—condemned the hobby-horse as "dangerous to the soul." It came back into favor later, but only for children. Times are changing, and Willie is developing an early tendency to snort when Santa Claus brings him a hobby horse instead of a child-size auto.

An editor can't help but feel friendly toward the horse. An auto is an unromantic contraption and rarely does anything unusual enough to entitle it to a display in the day's news. The auto drivers and passengers furnish plenty of gossip, but not their iron steed. The horse, however, can always be counted on to perform in a newsy fashion at some time or other in his life. Why, just the other day, a Louisiana woman complained to the district attorney that a horse had looked so attractive to her husband, he'd traded their 14-month-old son for the nag.

Security

PERHAPS nothing gives the American a greater sense of the permanency and stability of his country than these sad affairs in which a president passes away in office. It was the late President Garfield, if memory serves, who upon the death of Abraham Lincoln, said:

"God reigns and the government at Washington still lives."

Later, when he, too fell at the hand of an assassin, Garfield was succeeded by his vice president without a flurry. "God reigned" and "the government still lived."

Possibly in no instance has the succession of a vice president to the presidency been so natural as in the case of President Coolidge. In the light of an oil lamp a quiet man on a New England farm took the oath of office before his aged father. It was a transaction as smooth, as unruffled as the signing of a deed before a notary public by a Wisconsin farmer. Nowhere did misgivings arise. Even the sensitive stock market accepted it calmly, as a plain matter of fact involving no disturbing consequences. We Americans simply know that the government is something enduring, in no way affected by the lives and deaths of individuals. We experience these changes without a throb of the nation's pulse. It is good to be so sure of one's government.

China

CHINA takes a census, finds it has a population of 437 millions not counting three big provinces of which at least one, Mongolia, may have as many as live in the United States, despite its huge desert.

The Chinese population is at least 500 millions. Most of them are in wretched condition economically, not so much on account of overpopulation as of forest depletion. That's the real economic problem in China. Its original forests were chopped down without being replanted. This has created a shortage of natural building materials, caused periodic destructive floods and permitted much of the rich fertility of the land to be washed down into the ocean.

We Americans are destroying our forests faster than China ever did.

Many will be sorry to learn a reformer says he enjoys life.

In Ye Olden Times

TEN YEARS AGO TODAY

After years of working and waiting, the new water main connection at the La Crosse river has been made. The job was finished yesterday although it was to have been done by July 1, 1912. The water to the north side will now be carried through a sixteen-inch main.

At a special council meeting to be held early next week the G. Heileman Brewing company will ask permission to have more side tracks installed. The tracks are to be run to one of the new buildings the brewery is to put up.

Sparta is to have a new railroad station. The matter has been agitated for some time and Mayor McMillan and City Attorney Rice finally succeeded in getting a hearing. The Northwestern road has been ordered to build a station by June 1, 1914.

Work on the concrete street building in West Salem is being rushed. About a foot of dirt will be taken from the street to bring it down to a specific grade.

TWENTY YEARS AGO TODAY

Ole Moe, sawyer for the Holway company for many years, leaves today for Stillwater to accept a similar position.

The George Street Pleasure club will have its opening ball of the 1903-04 series on August 15.

The old wooden sidewalk around the high school building is being taken up and a tile one laid in its place.

What may prove to be one of the richest gold fields in this part of the country came to light yesterday with the discovery of a big piece of gold bearing quartz on the farm of Ned Reilly, near Houston. Walter Rose, the jeweler, tested it and declared it to contain enough gold to bring $125 a ton.

President Mahoney of the board of education last night sent in his resignation to Mayor Torrance. The council elected C. L. Lien to succeed him.

THIRTY YEARS AGO TODAY

Last Saturday John C. Burns distributed 1,000 tickets for free rides on the new electric cars to his friends.

Charles W. Young of this city has registered a homestead certificate for 320 acres of land which he secured from the government under Harrison's administration.

F. S. Page, ticket agent at the Northwestern, together with his wife, is taking in the wonders at the World's Fair on his annual vacation.

Misses Kate and Mary Klosheim, Dell Walters, Julia Hoffman, Lulu Drake and Minnie Leach will leave August 16 to see the sights at the World's Fair.

Yesterday afternoon the La Crosse Brewers' Union marched in a procession from the market square to the Tivoli where John Miller made a speech and a flag was dedicated.

These are some of the La Crosse people who registered at the Wisconsin building at the World's Fair yesterday: Chris Burns, Dr. Alice Graham, J. J. Toeller, Frank Killian, J. I. Lamb, Charles L. Wise and W. H. Funke.

Not Broken Reeds

BY CORONA REMINGTON

Pretty Evelyn Maynarde leaned over in the limousine and touched Mrs. Worthen's arm caressingly.

"Dear Grannie, it's such fun to have you with us," she said.

"It's fine to be with you young folks again—especially you, Evelyn. You know you're my pet."

"Darling Grannie, but I do wish mother'd come on; she's had time enough to buy a whole store out."

"She'll be along in a minute. Mary always was that way, even when she was a child. Sometimes I just hated to take her uptown because she'd have to stop at every counter and examine everything on it. And the questions that child could ask! Mercy me!"

"Oh, there's Valley," Evelyn suddenly exclaimed sitting up and starting to lower one of the little windows. "Valley!" she called. "Want to speak to you."

In horror Mrs Worthen put a restraining hand on her granddaughter's arm.

"Dear me, Evelyn, what are you coming to; Screaming after a man at the top of your lungs; on the main street at that! You won't have a shred of reputation left."

"That's nothing, grannie. There's not a bit of harm in it; besides, I want to speak to him."

Meanwhile the young man stopped short, turned around, looked inquiringly at the sky, the pavement, the store door, the passersby and finally spied the waiting car.

"Hi'lo there, Prissy. Just been trying to get you at the house; they said you were out," he smiled as he put a foot on the running board of the car and looked admiringly at Evelyn.

"I want to present you to my grandmother, Mrs. Worthen, Valley, Mr. Valentine Bassells, grannie."

Mrs. Worthen was so amazed by the flippant familiarity of the two that she found her genial nature completely frozen up and could only manage a curt little bow in acknowledgment of the introduction. "Prissy," "Valley." Her granddaughter permitting that! In her days it would have been "Miss Evelyn and "Mr. Bassells," and if she had called after a man in that hoydenish fashion she would have been banished to her room for a week. She listened to the two as they chattered away—a perfect jargon of slang; half the expressions she had never even heard before.

At last to her relief Mrs. Maynarde emerged from the store and came toward the car. Bassells moved aside, greeted her almost as familiarly as he had her daughter, opened the door and helped her into the car.

"Say, Prissy, got a date for tonight?" he asked as the chauffeur started the engine. "No? Good; let's go to the show at the Regina. They say it's great stuff."

Grandmother Worthen's thoughts were in a whirl. She leaned back in the car and tried to adjust herself to the fact that Evelyn was of her own kindred. After luncheon that day she brought a faded old album into the living room where Evelyn and her mother were seated.

"I came across this in the attic just before I left home," she explained, "so I brought it along because I thought it might interest you. In the old days there were no telephones, so when a young man wanted to take a young lady out he sent a note by his negro man servant. Here are some I received."

"Oh, Grannie, how exciting," exclaimed Evelyn. "Let me read them, do."

She took the book and began reading aloud:

Miss Sarah:

May I have the pleasure of your company at the opera tomorrow night? If you have an engagement for that time may we go to the cadet drill Wednesday?

Your sincere friend,
C. S. Melton.

"'Miss Sarah.' Oh," laughed Evelyn. "'The pleasure of your company.' Wasn't he the quaintest old thing, though? If anybody began a letter to me like that I'd think he was angry."

"How do they begin them?"

"Usually 'Dearest Evelyn' or 'Prissy' or whatever their nickname for me is."

"I thought so."

Mrs. Worthen said it as if she had feared the worst and found it so.

"No harm in that. What's the use of being so stiff and formal anyway?"

Mrs. Worthen was depressed. The world was going to the dogs. No doubt about it—the whole future depended upon the younger generation, and that was, indeed, a sadly broken reed to lean on.

That evening after dinner she dozed over her knitting in the library, and when Bassells called she was dimly conscious of voices nearby.

"Sh-h-, don't wake Grannie. She's so tired."

It was Evelyn speaking.

"Bless her heart, not I. I took a shine to her straight off the hook. Say, Prissy, don't let's go to the show tonight. Let's talk."

"All right, I'd rather. I want to show you Grannie's memory book, anyway. She won't mind."

The two young heads were soon bowed close together over the faded old book. Grannie's eyes came open just a little way and she had to admit that it was rather a pretty picture; his hair was so black and masculine, hers so fair and dainty.

"She may think men were more chivalrous in those days," said Valley, "but I believe they'd defend a girl and protect her just as quick today as they ever would. And men and women are much closer together now than they ever were. Look at our case; you're not only my sweetheart—you're my chum, my little buddie. There's nothing I'd be afraid to tell you; you know I always come straight to you with everything and that means a whole lot to a fellow. Bet her husband didn't tell her everything—not by a jugful!"

As Grandmother Worthen sat dozing, quite wide awake, it came back to her suddenly how often in days long past she had tried to get close to her husband and how she had felt, rather bitterly, that he had dozens of men friends who knew him better than she.

She gave a sigh of genuine relief. Maybe the world wasn't leaning on such broken reeds after all.

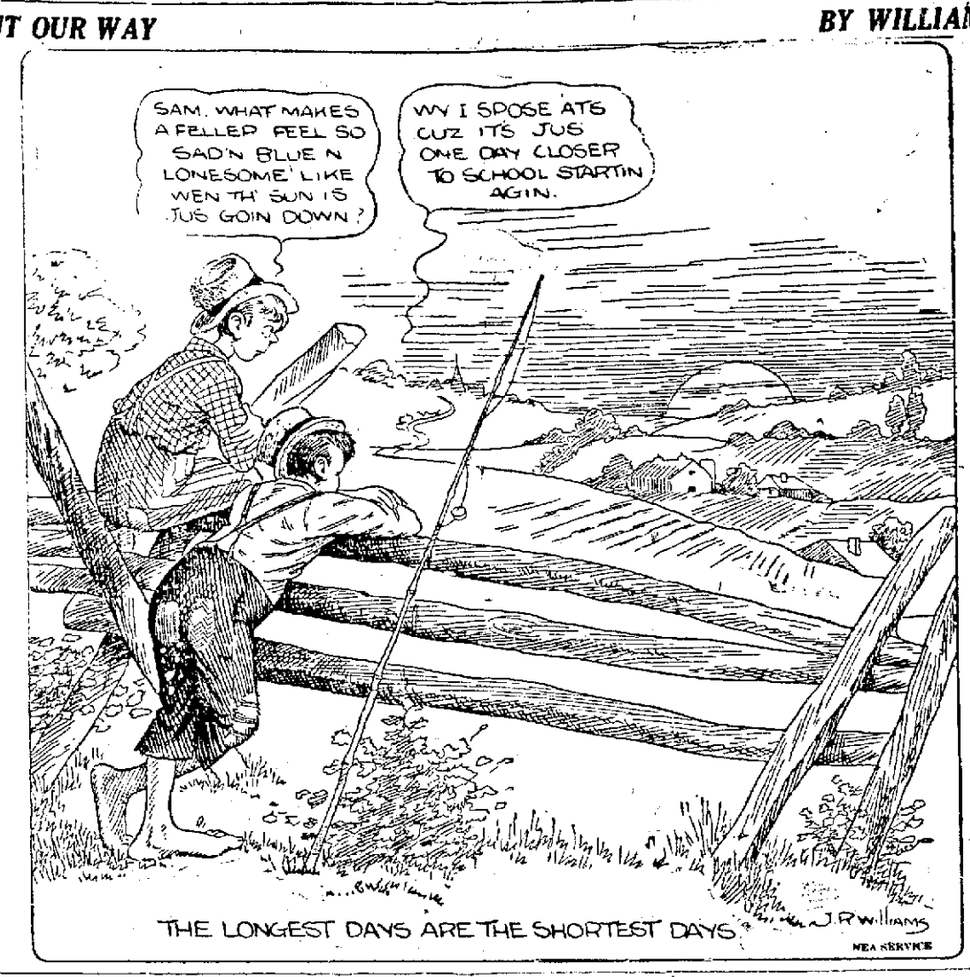
BY WILLIAMS



MAN PILOTS BLIND SAFELY, THEN IS STRUCK BY AUTO

SAN FRANCISCO, Calif.—After piloting a blind man safely across the busy intersection at Fillmore and Ellis streets, Joseph Van Garrack, 65, was run down and seriously injured by an automobile. He suffered severe scalp wounds, cuts on both hands and bruises of the body.

ANNIE ILSLEY DIES

MILWAUKEE, Wis.—Miss Annie S. Ilsley, prominent society woman here and daughter of the late Charles Ilsley, founder of the Marshall Ilsley bank, died suddenly of heart disease Monday at her home.

A Queer Belief

In Scotland it is believed by some of the country people that St. Valentine is propitious to consumptive patients and that in order to effect a cure the nails of the patient must be shorn early on February 14 and placed in a bag made from a piece of his clothing. The bag must be waved 'round his head three times, he meanwhile crying: "Deas Soil," then the parings are buried in a secret place. As these decay so will the disease vanish from the sufferer.

REFORMERS URGED TO CEASE LABORS FOR MORAL UPLIFT

Society Would Improve Faster if Left Alone Says Son of Darwin

LONDON—(A. P.)—Social reformers as a class do more harm than good, according to Professor Leonard Darwin, and society would improve much faster if they ceased to worry about it and let it go its own way.

Professor Darwin is a son of the great Charles Darwin, and it is natural that he should hold strong views on the survival of the fittest and how this best can be accomplished. He says that the misguided efforts of many sincere and earnest social reformers really result in encouraging the continuance of race inferiority and deterioration, which is just the reverse of what they are trying to do. In a recent speech before the Eugenic Education society of which he is president, he dwelt upon the harm he thought social reformers were doing.

"Mate Selection" was the title of Professor Darwin's address. He was not sure that mate selection, in the present state of society, was good for the future of the race, and urged that when the fit married the fit they tended to have smaller families, while the inferior people continued producing unfit types which became more marked.

"To secure human progress," he said, "the inferior types must be eliminated, and all that should be demanded is that this process be made as little painful as possible." Pity for others and solicitude for their liberty the speaker regarded as among the thing that constituted obstacles in the way of racial improvement.

"The philanthropists of today, however, Professor Darwin said, "only look on one side of the question, and entirely ignore the racial effects of the reforms they are advocating."

Both out-of-work doles to those constitutionally incapable of work, and out-door relief generally, if given without regard to the probability of parenthood in the future, would directly tend to promote the inferiority of the race in the future.

Motherhood endowment to the naturally superior and unfit alike, these and other methods of relieving distress, would have the same result, he contended.

Altogether, as viewed by Professor Darwin, there seemed to be a pretty blue outlook for the world generally, and even enlightened eugenists appeared to be able to find little comfort in his views.

But Professor Darwin said his objection to mate selection would disappear if "by some method less cruel than that of natural selection the inferior stocks could be made to multiply less quickly than the superior."

CLOCK RUNS FOR 55 YEARS WITHOUT NEEDING REPAIRS

COLUSA, Calif.—For the first time during a period of fifty-five years, the old Seth Thomas clock in the sheriff's office has been laid up for repairs. The faithful piece of mechanism probably will be again perched on the shelf in the sheriff's office.

The American taste is being educated to snails. They are to be found on the menus of many hotels.

SWEDISH SPEEDERS TO ESTABLISH OWN GUILT

New Law Requires Use of Recording Speedometers on All Motor Vehicles

STOCKHOLM.—By The Associated Press.—Unusual measures for preventing automobile accidents, and an entirely original idea for keeping the speeding nuisance in check are features in the new motor traffic laws which have just been passed by the Swedish Riksdag.

A striking paragraph in the new law is that which provides for the compulsory use of recording speedometers on all motor vehicles. Such a device not only indicates the number of miles the car has run but also the rate of speed during any part of the run. Thus, on the one hand, the innocent driver who may be wrongly accused of exceeding speed limits, has a mechanical record with which to prove his innocence, while officers of the law can use the automatic record as irretrievable evidence against the guilty speeder. Up to the present, no recording speedometer for automobiles has been perfected, but promising experiments with such an instruments with such shrdlu shrdlh nunu ment are being conducted, and the new law provides that, as soon as the mechanical problem has been solved the government has the power to require the use of recording speedometers.

Drivers' licenses, under the new Swedish law, shall be issued only to persons who can pass the eye and ear tests prescribed by doctors. Each application must also be accompanied by a testimonial signed by a local motor traffic inspector to the effect that the applicant is known to be of sober habits and of orderly conduct. Each license issued must contain the photograph of the holder.

Inspectors of motor traffic are to be appointed for every province. They must qualify for the position either by graduating from a technical school or by otherwise showing that their experience has given them expert knowledge. They must hold drivers' licenses and be familiar with all makes of cars.

The new speed limits in Sweden for passenger cars are 22 miles an hour in the city and 28 miles an hour in the country.

A searchlight of 500,000,000-candle power, said to be the largest in the world, was recently erected in San Francisco.

HELP WANTED

Signs have no attraction for the man who has thoroughly prepared himself in some definite line of work or profession. He is sought for instead of seeking work.

Circumstances may prevent you from attending college, but the International Correspondence Schools can show you and prove to you that you can stay at your present work and prepare yourself by a few hours in home study each week for the position you often wished you might some day fill.

The I. C. S. offers 200 standard courses. They are complete, practical and easy to understand. Write to the school at Scranton, Pa., for information or write

WEEKLY BOOK REVIEW

DEAN REVIEWS THE MINE WITH THE IRON DOOR, by Harold Bell Wright (Appleton).
OVER THE FOOTLIGHTS, by Stephen Leacock (Dodd, Mead).

BY JAMES W. DEAN

NEW YORK.—Harold Bell Wright is America's most popular writer. That statement is set down in the beginning so that there may be no misunderstanding of what is written in the following lines.

Wright started to write when he was a minister at Pittsburg, Kan. He had a message to deliver and thought

HAROLD BELL WRIGHT

it could be better said if he wrote it first. Later that message was printed as "That Printer of Udell's."

After that he still had a sermon to deliver. It came out under the title of "Shepherd of the Hills." Wright, the minister, was now Wright, the author.

Harold Bell Wright has never set claim to being a literary man. He is vitally interested in mankind and believes that he can help many to a better life while he is entertaining them with his fiction.

So Wright went on, turning out one book after another, each with some message of spiritual uplift. The success of these books piled up an immense reputation and following for him as an author.

And so we come now to Wright's latest, "The Mine With the Iron Door." Wright directed his attention toward this book solely as an author. He apparently was moved by no great urge to deliver a message. No candles burned for him as he ground it out, page by page, and thus the story becomes merely so many words and sentences read page by page and forgotten.

In the entire book there was not one moment that aroused the spirit of this reviewer. However—

Wright is America's most popular author. Now thousands will now "turn to Wright" to read "The Mine With the Iron Door."

* * * *

Perhaps the movies have had a depressing effect on American literature. Authors either write with the movie rights in view or are subconsciously affected by the movies they see.

* * * *

The locale of "The Mine with the Iron Door" is the mountain country Tucson, Ariz. Wright lives there. He undoubtedly knows his neighbors better than he knows any other people. He undoubtedly knows them better than anyone else knows them, especially a New York typewriter pounder.

But consider his cast of characters for this story of his home neighborhood: (1) A girl who was kidnaped from her kidnapers; (2 and 3) two prospectors who took the girl from the second kidnapers and who alternate each week as father to the girl; (4) a young man who has been wrongly accused of stealing immense sums of money, flees to the hills and falls in love with the nameless girl; (5) an educated Indian who returns to the savage state, using bow and arrow, wearing a feather in his headdress and living only for vengeance on white men; (6) a young doctor living in the hills with his mother because of his ill health; (7) a Mexican bandit, second kidnaper of the girl who returns to kidnap her again after she has grown to womanhood. And various other colorful characters.

Now I leave it even to Mr. Wright's neighbors if that isn't a cast and a situation that would appear in almost any western movie that might come to town.

When Harold Bell Wright hasn't a message to deliver he shouldn't write.

* * * *

Stephen Leacock is a master parodist. He does in type what a caricaturist does in line. He accentuates one feature until it becomes the badge of recognition of a person or situation. By that distortion he achieves a comic effect.

In this manner he holds up the accented simplicity of Ibsen's line and stage-setting to ridicule in "The Sub-Contractor." It starts thus:

Scene: A room in Slump's house. (There are no flowers on the table).

Slump: What beautiful flowers!

Vamp: Yes, they are fresh this morning.

(Slump and Vamp speak one after the other in short turns, like sawing wood with a cross-cut saw. But there is no need to indicate which is speaking. It doesn't matter.)

Are they, indeed?

Yes, they are.

How sweet they smell.

Yes, don't they.

I like flowers.

So do I. I think they smell so beautiful.

Yes, the spring will soon be here, etc.

Then comes the big moment of the play:

Vamp: What is he doing now?

Dump: I think he is eating dynamite.

Vamp: Will it hurt him?

Dump: Yes, presently.

Vamp: In what particular way?

Dump: After the warmth of his body warms it he will explode.

Vamp: How curious. How warm will it have to be?

Dump: About 90 degrees. . . . . He will explode in about 12 minutes.

Vamp: Is it wise to stay near him?

Dump: No, it is highly imprudent. We had better go.

Leacock rings down his curtain with the big problem still unsolved, quite in the Ibsenesque manner.

That is just one of his sketches in "Over the Footlights," a brilliant satire on the theater, a book which dramatic critics might seriously study to learn the art of criticism.

During the reign of Queen Elizabeth there was a tax on beards more than two weeks old and at an earlier period there was a tax on babies, which was scaled according to rank of the infant's parents. A duke was compelled to pay a sum equal to about $150 upon the arrival of a son and heir, while the commoner's child was hailed with a tax of two shillings.

The soil of Siberia is sometimes frozen to a depth of 63 feet.

STUTTERERS REFORMED IN CITY SCHOOLS

Speech Correction Department Has Great Success.

During the past year a new department of education was introduced into the public schools of La Crosse, that of speech correction, under the guidance of Miss Mary Zerler, formerly a kindergarten teacher here.

It is the aim of this department to correct speech defects and to improve speech disorder where complete correction is impossible. Corrective speech work was organized in La Crosse in the public schools in September, 1922. It is the aim of the department to take children afflicted with some type of speech disorder, ascertain first of all the cause of the defect, and then treat them accordingly. By speech disorder, foreign accent is not meant, but an absolute abnormality of speech—as lisping or stuttering. These defects show an inability on the part of the child to build up certain sounds or to control the speech mechanism.

The cause of the child's speech disorder in many cases is his inability to meet the situations which daily confront him. To meet this situation it has been found best to keep such children in public school classes, among children who show normal, emotional reactions, and so readjusting the personality of these emotionally unstable children so that they can meet the difficulties of school life with less conflict.

It is the aim of the teacher of speech correction to use her influence to keep the environment of the school room normal, to study the child there and in his home, in his complete human relations, making suggestions if the home conditions are wrong, changing the attitude of the child if the defect lies in the personality of the child. It is also seen to that the child has every physical care, for the difficulty can be neither all mental and emotional, nor all physical.

During the past year two hundred and ten children have been met in the La Crosse schools, one hundred and forty of them boys, and seventy of them girls. The number of children met two or three times during a single week has averaged one hundred and seventy-five. Out of this number 50 per cent have been dismissed, and a large number show great improvement. This shows the great value of this work.

Speech correction will be continued in the public schools this year. This work is invaluable to the children of the city.

The Canton, China Times, which claimed the distinction of being the only English language newspaper in the world published and edited entirely by Chinese, has suspended publication to avoid trouble with the new revolutionary government.

The "Tree of Justice" at Greensburg, Indiana, now nearly forty years old, is rooted in the limestone blocks of the Court House Tower. The town believes the tree sprang from a seed dropped by a bird.

BABIES WEIGHED THURSDAY OF THIS WEEK AT ST. ANN'S

Authorities at St. Ann's hospital announced Monday that babies will be weighed at the hospital on Thursday of this week, instead of Wednesday.

PRENUPTIAL AFFAIR IS GIVEN IN HONOR OF MISS CLARA LEE

THE MISSES Myda Spangard and Bessie Freeman were hostesses at a prenuptial affair which was given at the home of the latter, 1516 Kane street, in honor of Miss Clara Lee, a September bride. The color scheme was carried out in yellow and white. Games and musical numbers afforded entertainment and a dainty lunch was served at half past ten. The bride-elect was presented with articles of linen. In the party were the Misses Clara and Alma Lee, Engi and Esther Graf, Sybil Drake, Emma Nelson, Mildred Hauge, Phyllis Freeman, Eva and Agnes Flottmayer, Anna Eckerr, Dorothy Freeman, and Mesdames Valborg Roth, Fred Bruchman and Fred Henry.

* * * * *

MRS. J. J. VEIR, 2130 Wood street, returned Saturday from the Janesville fair, where she judged the ladies' departments and the school work from second to eighth grades. She reports the exhibits and attendants large. She leaves Tuesday to judge at the Green County fair at Monroe, having been chosen as judge of four departments at last year's fair.

* * * *

IN HONOR of her sixth birthday anniversary little Doris Nieland, daughter of Mr. and Mrs. Frank Nieland, 1212 Kane street, entertained fourteen small guests on Monday afternoon. The afternoon was passed playing games and dainty refreshments were served, garden flowers being used to beautify the rooms. The small hostess received many pretty and useful gifts. Those present were Marion Widrick, Ellen and Arline Forss, Josephine and Dorothy Johnson, Mary Louise Garder, Geneva Fromelt, Dorothy Gale Bingham, Gretchen Kinder, Geraldine Devine, Fern and Ruby Nieland.

* * * *

Miss Marjorie Adams has returned to her home at Chicago after a visit at the home of Mrs. R. M. I. Kinnear.

In vacuum tins—New Moon coffee.

The latest figures show that there are 15,430,000 Jews in the world.

ARTISTS FIGHT FOR CHANCE TO CARRY CASKET OF PAINTER

Funeral Allowed to Proceed Only After Compromise is Arranged

VALENCIA, Spain.—An unpleasant incident occurred Monday at the funeral of Joaquin Sorrella, the famous Spanish painter. Plans had been made to carry the coffin on a gun carriage behind which were to come the official representatives of the government.

However, a number of the artist's friends asked that they be allowed to bear the casket on their shoulders. The family objected and a dispute resulted in the course of which Senor Azzati, an artist and a republican deputy as well, attempted to remove the coffin. Thereupon Sorella's son struck him in the face.

An uproar followed, but finally through the mediation of the sculptor, Ben Revala, who represented the king, a compromise was arranged whereby the casket was carried on the gun carriage for half the distance to the cemetery and on the shoulders of the artists for the remainder of the way.

SAUNDERS OUT AS HEAD OF PIG-WIG STORES COMPANY

Will Fight Ouster as President of Corporation Holding Patents

MEMPHIS, Tenn.—The affairs of Piggly Wiggly Stores, Inc., after months of financial storm, were being guided by new hands Tuesday.

Clarence Saunders, originator of the system, and builder of chains of self-serve grocery stores, under whose management the company's stock created a sensation in Wall street, surrendered the presidency Monday to representatives of opposing interests, members of the "pool," who co-operated with him in the raid which resulted in catching thousands of short sellers. The directors, after accepting Saunders' resignation with that of Fletcher Scott, the president's assistant, elected J. C. Bradford of Nashville, Tenn., as the new executive.

Saunders, however, retains his position as president of the Piggly Wiggly corporation, which owns the patents under which the stores operate, collects royalties and operates the factory which turns out fixtures for the Piggly Wiggly Stores. Referring to an impending effort to oust him from this place, Saunders declared he would resist any such movement to his last resource.

DIPLOMATIC PAPERS ARE MADE PUBLIC BY FRENCH GOVERNMENT

(Continued from page one)

Poincare continues. "It is because they know their value is uncertain and, above all, because they are unwilling to undertake themselves to recover from a debtor whose defaulting and ill will they are well acquainted with.

"But we are obliged to tell them," the premier adds, "we can only pay our debts in proportion as we are paid what is owed us.

"If they consider our debts too high and they grant reductions and alleviations, we will immediately give Germany the benefit of this. That is to say, we only ask Germany for what we ourselves are asked."

The letter concludes as follows:

"It is upon these important points that the British and American governments must decide before anything else.

"Consequently, the Franco-Belgian conversations with the British government must be opened on very broad bases.

Hint at Mellon Visit

"It is even probable that definite proposals can not be made Germany until it has been ascertained from the American government what it intends to do.

"The visit of the American secretary of the treasury might be made use of from this point of view."

In spite of the extreme reserve in official circles as to the possible consequences, the British conversations with Premier Poincare and his collaborators at the Quai d'Orsay on Monday made it quite clear that little hope is entertained of saving the entente.

All idea of coming to an agreement with London on the features of the reparations problem was long ago abandoned, but it was still thought, until the receipt of the last note, that the British would give France further opportunity to see what could be done toward forcing Germany to pay. Now, however, it appears to French officials concerned with the reparations questions, that Great Britain stakes the life of the entente upon conditions intolerable for France.

Would Waive Pensions

Great Britain's activities in the reparations, said a high official on Monday, have all been in the nature of proposals for sacrifices on the part of France. There is only one more sacrifice, he said, that France is willing to make—she will abandon all claims to reparations payments on account of pensions if Great Britain will do the same.

But the British cabinet, he added, has shown little disposition to take even that small part in concessions to ease the burden on Germany.

The question was raised at the Quai d'Orsay on Monday whether Great Britain was charged by Germany with proposing arbitration by the international court at The Hague.

Doubts were expressed, however, whether the government of the reich would give its approval to such procedure.

See Basis for Parley

BRUSSELS—By The Associated Press.—The British reparation note has created a rather unfavorable impression in Belgian official circles, particularly because the legality of the Ruhr occupation is contested. Great Britain's agreement to accept the amount of her debt to the United States as her total payment for reparations and inter-allied debts, however, is regarded as a possible basis of discussion.

Washington Silent

WASHINGTON, D. C.—By The Associated Press.—Publication of the British note on reparations has not served to change the attitude of government officials here in declining to comment on the correspondence between the allied powers further than to indicate their "sincere hope" that the difficulties soon will be settled.

Threatens World Crisis

LONDON — By The Associated Press.—What is claimed to be "an authoritative and direct foot note on British foreign policy" was made public Monday night by the Central News.

"There is no tenderness in the British empire for Germany," declares the statement, "but the government believes that if France is out to maintain an indefinite stranglehold on Germany the complete overthrow of the economic situation of Europe, if not of the whole world, is certain.

"Although there is more than suspicion that the French policy is directed to the isolation of Great Britain in Europe, the British government is seeking not isolation but the co-operation of France. If that fails, obviously Great Britain will try a hand at the isolation game.

Will Seek Other Allies

"England may then try to win over Italy, to detach Belgium from her support of France in the Ruhr and to bring into line with her Holland, Switzerland, Sweden and Norway, who are suffering equally with or more than Great Britain from the effects of the French policy.

"Apart from the immediate aims of the governments in Europe, the dominating note of their policy is ultimate co-operation between Great Britain and America for world settlement. No immediate or sensational response from the United States need be expected, but Premier Baldwin believes Europe cannot be saved unless the American people join in saving it."

THE SHEIKESS OF PARIS

You've heard about these sheik guys; well, take a looksee at this sheikess. At any rate, that's what they call her in Paris because of her eyes and her heart-breaking ways. She's Lily Janlys.

ANNOUNCE SIX CENT DROP IN GASOLINE HERE

(Continued from page one)

ter of South Dakota ordered state highway supply depots to sell gasoline at sixteen cents a gallon, assumed a national aspect Tuesday when price cuts announced by the Standard Oil companies of Indiana and Kentucky, and independent producers became effective in mid-western and southern states.

Gasoline today was selling at 15.4 cents in Chicago, 14 1-4 cents in Omaha, 15.9 cents in Kansas City, 22 cents in Louisville, Ky., 11 cents in Dallas, Texas, and from 13 to 18 cents in other parts of Texas, with prices in other sections affected by the reductions varying according to freight rates.

In Illinois, Iowa, Michigan, Wisconsin, Minnesota, North Dakota, South Dakota, Kansas, Missouri and parts of Oklahoma, the cut made by the Standard Oil company of Indiana was six and six-tenths cents and that of the independents in the same territory five cents. Retail prices in Kentucky, Florida, Mississippi, Alabama and Georgia were reduced one cent by the Standard Oil company of Kentucky. Gasoline dealers in Nebraska announced a cut of six and one-fourth cents. The Magnolia company reduced the price in Fort Worth, Texas, two cents, making the price 11 cents a gallon.

U. S. to Probe Situation

Following the announcement that an investigation of the gasoline and oil situation would be undertaken by department of justice, refiners and distributors in the Rocky mountain states declared they courted inquiry, which they said would show no unreasonable profits had been made. Officials of the Continental Oil company in Denver said they were not concerned in the price cuts being made in other sections of the country.

Independents meet at Madison

MADISON, Wis.—Representatives of the Department of Marketing and the Atty. General's office will meet with the representatives of the Wisconsin Independent Oil Jobbers association at the state capitol Wednesday at which it is expected the oil dealers will decide what action will be taken in the matter of price reduction for gasoline in Wisconsin.

Neither the independent dealers nor the Standard Oil company operating in the state have made any reduction in the price charged for gasoline.

Edward Nordman, commissioner of markets, who has begun an investigation of present prices to determine if the charge for gasoline is being made on a basis of the law of supply and demand declared that the laws of Wisconsin require a uniform price in the state and this protects the dealer so long as he keeps his prices at a uniform level.

The commissioner said he had not investigated the situation sufficiently to determine whether the prices charged here are fair but the basis for the present charge he said would be developed at tomorrow's meeting, and whatever decision is reached at that time will give his department a line on what action is required.

It is expected that thirty-five dealers from all parts of the state will attend the meeting.

Prices Cut at Madison

MADISON, Wis.—Gasoline dealers here followed the lead of Milwaukee dealers announcing Tuesday morning that gasoline had been cut 6.6 cents the cut affecting both independent and Standard Oil dealers.

ROYAL COFFIN CRUISED SEAS WHILE WILLIAM LIVED AT DOORN

BREMEN.—By The Associated Press.—Back in the old days when William Hohenzollern, now living quietly in Holland, used to enjoy traveling about Europe as the German emperor, the steamer Bremen often saw him installed in the imperial suite, built gaudily for his personal use. And at that time it was related, though never proved, that a sumptuous royal coffin was always carried on this vessel, in case of eventualities.

It now appears this story was true. The Bremen is today the Constantinople, running between Sandy Hook and the Golden Horn. Down in her hold there was found recently the coffin referred to. It is a pretentious affair, lined with silk and decorated with gold and silver. William last traveled on the Constantinople in 1912.

Japan Buying Foreign News Print Paper

Publishers of Japanese newspapers are endeavoring to arrange for supplies of news print paper from foreign countries. Up to the present Japanese publishers have always purchased their supplies of news print from local mills but exorbitant prices are forcing them to look for supplies outside Japan.

The Japanese mills have threatened to refuse supplies in future to any newspaper which buys from a foreign country, but in spite of this a large newspaper is purchasing newsprint from the United States and Sweden. There appears to be an excellent opening in Japan for foreign newsprint, providing that the consumers could be assured of permanent supplies.

Chain grocery stores now transact less than 10 per cent of the total staple grocery business of this country; but within five years it is predicted that this volume of trade will increase to near 25 per cent.

Emeralds, the rarest of precious stones, are gradually becoming scarcer, the decrees of fashion of late having caused a large inroad upon the already low stocks exisiting.

OFFERED POST

Prof. William H. Kiekhofer, head of the University of Wisconsin, department of economics, has been offered the presidency of the Oklahoma University. Dr. Kiekhofer is but 40 years old. He is a graduate of Northwestern College at Naperville, Ill.

It costs about $50,000 annually to feed the creatures in the London Zoo.

CALL ON FARMERS TO HOLD PRODUCTS TILL PRICES RISE

St. Croix County Taking Lead in Movement to Secure Fair Return for Labor

MADISON, Wis.—St. Croix county farmers are taking the lead in a movement which it is expected will aid the farmers of the state in obtaining what they consider a fair price for farm products on the farm. A resolution recently passed at a meeting deplores the present conditions of the farmer, and adds "be it resolved that we ask the farmers of the United States that on and after September 1, 1923, we refuse to market one pound of farm products until we get a profitable price on the farm."

The prices named include: 11 cents for hogs; 12 cents for fat steers and heifers; 12 cents for lambs; $1.50 for wheat; $1 for rye and barley; 50 cents for corn, oats and potatoes; $3 for flax, 31 cents for cheese and 57 cents for butter.

Continuing, all farmers favoring the movement are asked to urge all their neighbors to join in this movement and be ready to go on strike the first day of September, 1923.

P. J. Stevens of Ceylon, Wis., the committee in charge of the movement, announces, will receive all communications and inquiries into the movement.

ELKS WILL SEND LODGE BAND DOWN TO STATE SESSION

Plans have been completed for a special car which will take the Elks band of the La Crosse lodge to the B. P. O. E. state convention at Madison on Friday, August 24. By subscription among the members of the lodge a sufficient sum has been pledged, and there is a movement now on foot to organize a party of local Elks to man a second special car and accompany the band and delegates. It is planned to leave the city on Friday evening, the 24th, and spend all of Saturday, the big day of the convention, in Madison, returning on Sunday.

TROLLEY HITS AUTOMOBILE ALGOMA MAN KILLED

WATERTOWN, Wis.—Clifford S. Birdsall, 35, of Algoma, was instantly killed here late Monday afternoon, when the coupe he was driving on a detour of Highway 19, at the city limits, was struck by an interurban car on the Milwaukee-Watertown line. Birdsall was alone and did not see the trolley car, which demolished the coupe and hurled the man through the top for a distance of 75 feet. Birdsall was a traveling salesman for the Algoma Foundry and Machine company. A brother-in-law came here Tuesday and accompanied the body back to Algoma.

NAME DIRECTORS FOR BADGER TOBACCO POOL

MADISON, Wis.—Election of directors of the Northern Wisconsin Co-operative Tobacco pool will be the chief business to be taken up by ninety-six delegates from the various districts who are meeting here Tuesday.

Among the interesting talks on the program is one by Dean H. L. Russell, of the University of Wisconsin and one by Edward Nordman, head of the state division of markets.

The program for the year's work by the pool will be left in the hands of the board of directors, it was announced this morning and the delegates to today's meeting will confine their activities to the election.

ACCUSED DRY AGENT FREED

MADISON, Wis.—John F. Fillion, former federal prohibition officer here, was released from the county jail Tuesday where he has been awaiting trial on charges of extortion and bribery in connection with the famous liquor raids at Hurley, Wis., in 1920. Lack of evidence was given as the reason for the order by Judge Claud Z. Luse.

Turkey to Be "Reconstructed."

Economic reconstruction of Turkey is being forwarded by wealthy Moslems of Egypt, who will help the movement by investing their capital in irrigation enterprises and in others, in which Egyptians are especially competent, according to Loutfi Bey, who represented the Egyptian Nationalists at Lausanne, and who has just returned from a trip to Angora to arrange for the incorporation of a Turko-Egyptian company for that purpose.

While other Moslems have given the Turks much moral support, there has been comparatively little economic solidarity among the peoples of Islam in the past. Loutfi Bey says that his company represents half a million dollars. He hopes to increase its resources by interesting wealthy Indian Mohammedans in the project. There is also talk in Egypt of following the West by "adopting" devastated Turkish villages.

King Tut's Discoveries

Mr. Howard Carter, the American archaeological expert who recently uncovered for Lord Carnarvon the tomb of Tutenkhamen in the Valley of the Kings, is no amateur, but a graduate of the school of experience. In 1903 he was Inspector General of the antiquities of Upper Egypt, and was entrusted by Mr. Theodore Davies, a wealthy patron of archaeology, with the direction of some excavations that disclosed the tomb of Thutmose III. In the same year the tomb of Queen Hatshepsut was cleared out by him on a Davies endowment. Under a Davies commission Mr. Carter discovered the last resting place of Queen Ti, mother of King Akhnaton, predecessor of Tutenkhamen. He gave up his government post in 1904 to prosecute his recent search.

IN MEMORIAM

August 14th, 1923.

In memory of our beloved son and brother, Gerhard L. Berrum, who died a year ago today. THE FAMILY.

Margaret's Book Really Ought To Be Amazing

MARGARET SHOTWELL

OMAHA—A flapper who admits it.

That's Margaret Shotwell, 16-year-old daughter of a prominent Omaha attorney.

And she's capitalizing on the fact. A "professional flapper," she calls herself.

Margaret inherited $75,000 on the death of a friend of her family. Immediately, she betook herself to Hollywood, capital of Movieland.

Out there she got a job as a movie extra. And now she's gathering material for her book, "A Flapper's Impressions of the Motion Picture Stars."

Her sister flappers here in Omaha can't hardly wait until it comes out. It will reveal so many things they never knew before! At least, that's the word they received from Margaret.

Already the "professional flapper" has interviewed some of the screen's most scintillating lights.

No wonder all the bob-haired clientele is so excited nowadays.

PRETTY WEDDING IS SOLEMNIZED AT CALEDONIA MONDAY

Melba C. Mann Becomes Bride of Isidore C. Gengler as Church Function

CALEDONIA, Minn.—(Special.)—One of the season's prettiest weddings took place here Monday morning when Melba C. Mann became the bride of Isidore C. Gengler, during a nuptial mass read by Rev. L. O'Day at 7 o'clock at St. John's Catholic church in this city. The bride wore an unusually pretty gown of tan crepe du chine with tan hat to match. She carried a bouquet of bride's roses. Miss Helen Mann, a sister of the bride, wore a dress of blue and grey silk with grey hat to match. Joseph H. Gengler, a brother of the groom, acted as best man. The bride, who is a daughter of Mr. and Mrs. G. W. Mann of this city, is a popular and gracious young lady. She is one of Houston county's most successful teachers, having taught in this vicinity the past few years.

The groom, a son of Mr. and Mrs. J. P. Gengler, is the hustling manager of the South Side Hatchery.

After a sumptuous wedding breakfast they left on a honeymoon trip through Wisconsin, Illinois and along the Great Lakes.

They will be at home to their many friends after September 15, at the lovely cottage in Sunnyside, which the groom recently purchased.

MILWAUKEE BROKER ARRESTED IN EAST

MILWAUKEE, Wis. — Theodore Rodman, former stock broker here, was arrested Monday in Brooklyn at the request of J. G. Laubenheimer, chief of police, on a charge of being a fugitive from justice, and will be brought here to stand trial.

Rodman, who is now organizer and vice president of the United States Potash company, Brooklyn, where he was arrested, is alleged to have defrauded Michael Szymanski, Milwaukee, out of $1,500, in the organization of a chemical company in 1921. The company is now defunct.

John J. Martin, of Terre Hill, Pa., is known to the horsemen of America as one of the most ingenious blacksmiths in this country. He has made a scientific study of the shoeing of horses, based on the anatomy of the animal. He has a cabinet, plush lined and ornamented, in which he keeps some fifty shoes, duplicates of the ones he has made for famous racers.

MINNEAPOLIS FLAX

MINNEAPOLIS, Minn.—Flax—No. 1, $2.44¾ to $2.49¾.

JUDGE TAYLOR OF WAUKON FINDS HIS SON IN LA CROSSE

CALEDONIA, Minn.—Judge Taylor of Waukon, Iowa, was in Caledonia Sunday enlisting the aid of Sheriff Abbotts in finding his fifteen year old son. After a reprimand from his father, the young fellow left home Thursday and he was reported seen at various places in Houston county. While Sheriff Abbotts was in Winona today looking for the lad he received a call from Judge Taylor stating that he had located his son in La Crosse.

While from 10 to 15 deaths occur among 100 infants under the age of one year in various parts of the United States, more than half of them occur before the age of one month. That is the time of life when the infant depends more than at any other upon a good heredity.

To relieve the week-end pressure at the London free baths, the Hackney Council as an experiment has arranged to supply free soap to those who go to the baths early in the week.

BEER ADVOCATES OUTLINE PLAN TO ABOLISH SALOON

Would Have Wine Sold Only by Government; Liquor as Medicine

MILWAUKEE, Wis.—A method could easily be adopted that would, as far as it is humanly possible, overcome the present conditions of dissatisfaction, lawlessness, moonshine, etc., following in the wake of prohibition, according to Dr. J. J. Seelman president of the Association Against the Prohibition amendment, Wisconsin division.

Dr. Seelman says that he has recently been receiving numerous letters from persons, who, he believes, were sincere believers in prohibition, inquiring for greater detail as to the manner in which his organization expects by the modification of the Volstead act to permit the use of beer and wine to remedy these conditions, and as to how the traffic could be controlled or regulated.

"We have given a great deal of thought to this problem and are of the opinion that it can be solved in a manner that will be fair and reasonable," said Dr. Seelman.

Among the outstanding features of the remedy which Dr. Seelman offers are the following:

"Modify the Volstead act to change its untruthful definition that beverages containing one-half of one per cent are intoxicating to one nearer fact and common sense, say 3 to 5 per cent by volume; place the product under the pure food regulations; restrict the sale to the consumer with delivery direct to his home or place of abode, and delegate to the states the power of definition within the above limitation subject to a referendum vote of the people by that state.

"Permit the sale of wine for dietetic and medicinal purposes by the government (the eighteenth amendment only prohibits for beverage purposes) at a uniform price direct to the consumer, under a personal license system, through duly designated government stores, and not to be drunk upon the premises where sold; the people of the state by a referendum vote to declare for or against the sale of wine by the government, within the state.

"Ardent or distilled spirits to be sold for medicinal purposes by the government through duly designated stores at a reasonable price, upon an order from a duly licensed physician.

"Such a system would automatically eliminate the saloon, decrease the demand for moonshine, destroy the traffic of the bootlegger, gain the co-operation of the people towards punishment of violators of the law, restore respect for the law and encourage true temperance.

"It would remove the question of prohibition as a national political issue; would relieve law-making bodies of the harassment of contending forces; would put the question directly to the people of the various states where it properly belongs, and furthermore through the revenues derived, afford a welcome relief to a tax-burdened people."

BLOW SAFE OF GILMAN BANK; FLEE WITH $3000

EAU CLAIRE, Wis. — Robbers Monday night blew the safe in the State bank of Gilman, Taylor County and escaped with loot estimated at $3,000, according to information received here Tuesday. All wire communication from Gilman was severed by the robbers and service had not been resumed at noon.

ILLINOIS GIRL MAY DIE AFTER A WILD RIDE IN AUTOMOBILE

Five Boys Throw Her Out of Car in New York; Found in Street

NEW YORK.—A young and attractive girl, believed by the police to be Miss Bessie Sanchez of Genesee, Ill., is in a critical condition in St. John's hospital, Long Island City, and may die as the result of being thrown from an automobile in which there were five youths, in Queens county, where she was found early Monday unconscious.

During the few moments she regained consciousness at St. John's hospital, Long Island City, and may from a possible fracture of the skull, several bruises, and shock, told the physicians and the detectives she was standing at the Long Island City end of the Queensborough bridge during the afternoon, Sunday evening when an automobile with five youths in it stopped at the curb as she stood in the shelter of the doorway. They told they would take her home.

Fought For Her Life

One of the youths placed a blanket over her head as she ran from the doorway to the automobile. All the youths were well dressed, and when the automobile had proceeded about three or four miles it turned off the Queens boulevard and stopped.

She said she had to fight for her life and remembered the automobile starting away again when she received a blow on the head.

Has Illinois Address

When asked her name the girl, who is about 22 years old, with an olive complexion, said "Bessie" and lapsed again into an unconscious state.

In her pocket was found a piece of paper with the name Bessie Sanchez, Genesee, Ill. The girl is believed to have been visiting relatives somewhere in Long Island City.

BARGAIN EXCURSION TO WINONA
On the steamer Washington Wednesday, August 22nd. Leaves La Crosse 9:00 a. m., returns 6:00 p. m. Adults only 75c, children under 16 years 25c.—Advertisement.

Southern California college and high school girls recently donned overalls and went down to the docks to help load a shipment of clothing for Near East relief centers. Here's Billie Plennard of the University of California doing her bit.

BABIES ABANDONED BY MOTHER FOUND LIVING IN OPEN

SUPERIOR, Wis.—Abandoned by the mother, police believe mentally unbalanced, five children, the oldest eleven, were found "living" under a pile of snow fences here Monday. A tattered rain coat found nearby afforded the only covering for the children who, according to police, had been under the fence since Friday night.

Police stated that the mother, who operates a small dairy farm near Duluth, is believed to have come here with her children in quest for pasturage for three cows she owns. She is believed to have left the children and returned to her home for the cows.

WASHINGTON SILENT ON RECOGNITION OF OBREGON'S REGIME

Officials Decline to Confirm Reports that Copy of Agreement Has Been Received

WASHINGTON, D. C.—Special.—The American and Mexican commissioners, who for nearly three months have been deliberating on the outstanding differences between the Obregon regime and the American government, are approaching the end of their labors, it was announced at the state department Monday. While the optimism of administration officials as to the outcome of these deliberations is manifest, it was emphasized that the commissioners merely were "preparing matters for presentation to their respective government."

Officials Decline Comment

Officials declined to confirm most persistent rumors that an announcement would be made following Tuesday's cabinet meeting, though it was naturally assumed that when the commissioners had finally completed their work announcement of that fact might properly be made.

It also was assumed that announcement would be made simultaneously in Mexico City and in Washington, if made at all, though state department officials said it was understood the American commissioners would return to Washington and make their report in person, and denied any knowledge of a decision as to when these conclusions would be given to the public.

Keep in Close Touch

Officials declined to confirm reports that a copy of the understanding reached by the American and Mexican commissioners had been received in Washington, but emphasized the fact that the department has been in constant touch with the American representatives and that everything done by them has been with the "direct co-operation" of the department. They declined, however, to go into detail as to the conclusions reached.

Apparently well founded reports that the American commissioners would leave for Washington tomorrow were not confirmed at the department, where officials stated that so far as was known no definite date has been set for their departure. It was stated, however, that it was assumed the American representatives would leave for Washington within a few days if their work is complete.

Big In Size and Service

THE greatest achievements throughout the ages have been those discoveries and inventions which have made it possible for men to do the work of the world better and at the same time gain the leisure needed to develop their own powers.

No single class of achievements has done more to overcome the obstacles which confronted mankind in his climb toward better things than those which are grouped about the discovery of petroleum. From this source he first secured cheap and abundant light, lubricants and power.

The discovery of kerosene gave him a clear, dependable light which made systematic night study possible.

The development of unnumbered lubricants made the operation of the countless machines which serve the world practical.

The refining of gasoline made the internal combustion automotive engine practicable.

In the development of these helps, the Standard Oil Company (Indiana) has been a leader.

For years it has maintained, at its refineries, research laboratories and testing stations where men were constantly at work finding new uses for petroleum, and as the discoveries have been proved of practical worth they have been given to the world.

The Standard Oil Company (Indiana) has done more than develop a large number of products and manufacture them in quanities. It has priced them at reasonable figures and has organized a comprehensive system of distribution which makes it possible for any man in the ten Middle Western States served by the Company to get what he wants quickly and easily.

Of these achieyements the Standard Oil Company (Indiana) is justly proud—particularly so, as the public has paid no premium for the enjoyment of these comforts.

In contradistinction, every additional product that this Company is able to take from petroleum bears its just proportion of the total manufacturing expense and tends to keep down the manufacturing cost and the selling price of all petroleum products.

Thus do the activities of a big organization, founded and operated on the principles of equity, fairness and justice, accrue to the benefits of the public for the common good.

NORTHERN WILD BIRDS ASSURED PROTECTION FOR WINTER MONTHS

Louisiana to Establish Feeding Grounds for Migratory Flocks

NEW ORLEANS.—Reinforced by a staff of seven wardens in his own employ, by the moral support of the state of Louisiana, to which he only recently conveyed the Rockefeller, Sage and Rainey-McIlhenny game preserves and by good sportsmen everywhere, Edward Avery McIlhenny is now undertaking a new stewardship in the interest of wild life protection. Already an informal advisor and overseer for the state in connection with more than 500 square miles of territory, Mr. McIlhenny has taken control of some 100,000 acres of land in the heart of the Gulf Coast game regions.

Mr. McIlhenny has for some time owned 78,000 acres of ground, and only a few days ago obtained 22,000 acres more in the wild fowl feeding grounds. This land constitutes practically all that is left of the feeding grounds except the territory in the game preserves. Mr. McIlhenny, after several months required to clear up title to all the ground in question, has just announced his purchase.

The significance of Mr. McIlhenny's announcement is in the fact that with his acquisition of the ground the millions of duck, geese and other game birds which come from the north to feed here in winter are assured of permanent feeding grounds and permanent protection against unscrupulous hunters and commercial exploitation. Already Mr. McIlhenny is being congratulated by sportsmen for his farsighted program.

Mr. McIlhenny has announced no plans with regard to the trade he has acquired other than to say that game will be protected and safeguarded. With this 100,000 acres in hands friendly to wild life, many will be safeguarded in all the territory from the mouth of the Mississippi to Texas.

Seventy-five miles of coast line along the gulf will be protected, and the total area inland is approximately 700 square miles. This territory includes the Rockefeller Foundation, of 58,000 acres; the Rainey-Henny and Louisiana state Wild Life Refuge of 62,000 acres; the Sage Foundation, seventy-eight thousand acres, and the property now controlled by Mr. McIlhenny. The Gulf of Mexico is the south line, and the White Lake and the Louisiana rice fields form the northern boundary. Needless to say this territory is a paradise for birds coming from as far north as the Arctic Circle to feed for the winter as well as for hunters, if they could get into the grounds and run wild.

STATISTICS SHOW SLIM MEN HAVE BEST HOPE OF LIFE

After Age of Thirty Longest Life Span Prevails Among those Below Average Weight

NEW YORK.—Thirty is the magical age in the health development of the ordinary person's life. At thirty he is supposed more nearly to approach the normal. Under thirty he may well weigh a number of pounds above the average called for in the standard height, weight and age tables but after thirty the longest life span prevails among those whose weights are uniformly below the average, according to figures compiled by the Metropolitan Life Insurance Company, of this city, and given out by the American Child Health Association.

The association asks everyone to keep track of his or her weight and to remedy any excess by diet and right living.

In a statement accompanying the figures Dr. Louis T. Dublin, of the insurance company, who compiled them, says:

"After thirty, people who weigh less than the average have a better chance for long life, the records of the insurance companies show. After this age it is a decided advantage to be slight and a serious handicap to gain materially in weight; provided, of course the light weight is not the result of a sudden loss in weight which may be the result of organic disease."

"But the weight tables posted on public scales," he continues, "should not be taken too literally. Young persons may well weigh a number of pounds above the average called by the tables. An excess of ten pounds is associated with the most favorable conditions among people between twenty and twenty-five years old.

"The public should realize these facts and accommodate their habits of diet and exercise to them. In America we eat too much and too well. The oriental coolie and the European peasant do an enormous amount of physical work on a meagre diet. No one advocates a return to primitive conditions or to lower standards of living, but it would be well for us to keep in mind the exact requirements of the adult body. We should recognize that when we have grown up we no longer need food for growth, and that for the replacement of burned up tissues we need only about 2,500 calories a day. This is equivalent to two very light meals and one hearty meal a day. Let me illustrate with a menu for an entire day for an active man which will contain the required 2,500 calories. For breakfast he may have a small average serving of cooked fruit or an apple or an orange, a serving of cereal, a slice of bread or one muffin or roll with butter, a cup of coffee with sugar and cream. This will contain about 600 calories. The luncheon may consist of a salad, bread and butter, a choice of coffee, tea, or cocoa, with sugar and cream and a dessert. This will account for 650 calories. The important meal of the day, or dinner may consist of a soup, an average serving of meat, potato, two green vegetables, bread and butter and a dessert. If average portions are served, a total of about 1,200 calories will be included. This would make the total for the day approximately 2,500 calories.

"If more people checked their diet to the reasonable limits of their body requirements, there would be a great improvement in the general health of the nation."

HE'S ESCORTED

OWNER JAILED IN CAFE RAID

SLEEPY EYE, Minn.—Several gallons of moonshine were confiscated and Henry Seifert, proprietor, was arrested last night in a raid on the Seifert cafe here. Seifert was held in county jail pending a hearing.

AMERICAN TOWNS PRONE TO SELECT DUPLICATE NAMES

Thirty-one States of Union Have Town Named Franklin

WASHINGTON, D. C.—By The Associated Press.—There is a very peculiar story connected with the naming of Peculiar, Missouri—which is also a peculiar name for a town.

The federal government does not name towns and hamlets when they are born or feel the urge for a cognomen, but the postoffice department does regulate them to the extent of prohibiting duplicating of names within the same state. So when a newly formed community in Missouri suggested a certain name for its post office, the department informed the inhabitants there was already one by that name in their state.

Several other names were chosen by the residents and submitted, but always with the same result. Finally an exasperated official of the department, in refusing the latest choice, wrote the city fathers among other things "that it was mighty peculiar they could not find a good name for their town." Whereupon he received the following reply: "Acting on your suggestion we select the name Peculiar." And so Peculiar is on the map of today.

There is only one rule in the naming of new towns, and that is that there shall be but one of the same name in a state. But that does not prohibit other states from boasting of the same name. For instance, there are 45 names used more than 20 times each to designate towns and cities. Benjamin Franklin is remembered as an inspiration more than any other person, and Franklin as a town name takes the prize, occurring 31 times in 31 states. The others in point of popularity run: Clinton, 30 times; Chester, 29; Arlington, 29; Washington, 28; Troy, 27; Salem, 27; Madison, 27; Marion, 27; Manchester, 27; Clayton, 27; Glenwood, 26; Kingston, 26; Newport, 26; Ashland, 25; Centerville, 25; Cleveland, 25; Auburn, 24; Dover, 24; Hilsboro, 24; Lincoln, 24; Monroe, 24; Oxford, 24; Princeton, 24; Springfield, 24; Warren, 24; Union, 24; Greenville, 23; Wilson, 23; Belmont, 22; Buffalo, 22; Canton, 22; Dayton, 22; Eureka, 22; Liberty, 22; Milford, 22; Plymouth, 22; Burlington, 21; Lebanon, 21; Portland, 20; Lexington, 20; Jamestown, 20; Hudson, 20, and Danville, 20.

Duplicated names are the bane of the postal clerk, and the Yankee reputation for originality rises staggering when confronted by the apparent lack of imagination used to name American communities. There are even two Chicagos, six Philadelphias, seven Detroits and 14 Denvers.

Similarity in names also causes the postal department considerable trouble. Indistinct penmanship might easily confuse Eldoro, Iowa, with Eldorado, Iowa. In Pennsylvania alone there are 13 communities whose names begin with the prefix Green: Greene, Greenbriar, Greenburr, Greencastle, Green Land, Greenoch, Greenpark, Greenboro, Greensburg, Greenstone, Greentown, Greenville and Greenwald. There is a partiality for Bloom as a prefix in New York state, as for example Bloomburg, Bloomingdale, Blooming Grove, Bloomington and Bloomville.

Foreign cities have contributed their names freely in this country. There are 18 towns known as Paris and a like number of Genevas, 17 Berlins despite the war, 12 Moscows, 11 Viennas, 6 Pekins and 2 Brussels.

BONES OF 100 YEAR OLD SNAKE FOUND IN CAVE

MONROE, La.—The skeleton of a huge snake, measuring ten feet long and well preserved, and believed to have been more than 100 years old when it died, was found recently by a party of engineers and surveyors in a cave near Junction City, on the Louisiana-Arkansas state line. When the skeleton was found an aged negro living near the cave told members of the party a monster rattlesnake had terrorized the Junction City section sixty years ago.

FORD HAS SUPPORTER WHO THRASHES TEN MEN

TRENTON, Mo.—Henry Ford has his strongest supporter in F. Durant of Tindall, who whipped ten men to prove that his candidate for president was best.

Durant got into an argument with the local constable and before the argument was over the constable had been socked, another man badly beaten and eight other men routed. An emergency call to the sheriff brought the latter with deputies and Durant was subdued.

Durant pleaded guilty to assault upon one man, but hardly had he been fined when the other victims began filing into court. After a lengthy conference it was decided to assess an additional fine of $25.

Durant is 35 years old and weighs more than 200 pounds.

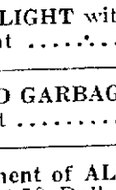
Cuticura Heals Face Affected With Itchy Pimples



"My face was affected with pimples which later broke out all over my body and between my fingers. The pimples itched and I scratched them, which caused large, sore eruptions. At night I could hardly sleep on account of the itching and burning, and I could hardly stand to have my clothes touch me. The trouble lasted about half a year.

"I tried everything I could think of but nothing did any good. I began using Cuticura Soap and Ointment and soon found relief. I continued using them and in about a month I was completely healed." (Signed) Miss Lucille Sampley, Harding Grove, Ind.

Rely on Cuticura Soap, Ointment and Talcum to care for your skin.

Samples Free by Mail. Address: "Cuticura Laboratories, Dept. H, Malden 48, Mass." Sold everywhere. Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Soap shaves without mug.

ADAM KRONER COMPANY

319—Pearl St.—321.

Mr. Shaver is saving $73 a year by smoking "BULL" DURHAM and so can you

2710 E. 76th Place
Chicago, Ill.

The American Tobacco Co.
111 Fifth Avenue
New York City

Gentlemen:

I have always smoked "Bull" Durham, and your advertisements in the Chicago papers, making a strong point of the saving idea, caught my eye. I want to tell you of a little experiment I have just made.

I usually smoke about a package of "Bull" Durham a day, which costs me ten cents.

For a week I switched to the tailor made cigarettes and used two packages a day, costing me thirty cents. Figuring this up covering a period of a year, "Bull" Durham cost me $36.50 as against $109.50 for the other kind.

This means a saving of $73.00, which never occurred to me until I saw your ad.

Assuring you that I will always "roll my own" I am

Sincerely,

Sam Shaver

May 25, 1923.

With each package you receive a book of 24 leaves of RIZLA+ the finest cigarette paper in the world

You will be amazed to see how the use of "Bull" Durham tobacco will cut down the cost of your smoking. Remember "Bull" gives you 50 cigarettes of the best flavor and quality for 10 cents.

This means easily a saving for the average smoker of from $1 to $1.50 a week—$52 to $79 a year.

Seventy-nine dollars will buy lots of things. A radio set, a talking machine, a very fine suit of clothes, a set of tires, the first fifteen payments on a Ford, a good-sized insurance policy.

Hard to roll your own? Not really. Give yourself a chance to learn. Have a sack of "Bull" in your pocket all the time as well as your regular cigarettes. Every time you think of smoking a cigarette pull out your sack of "Bull" and try rolling one.

By the time you've used the sack you ought to be a fair producer. And you'll certainly be a convert to the mild, delightful flavor of the unequalled cigarette that "Bull" Durham makes.

Now try it yourself and write us your experience

Guaranteed by The American Tobacco Co. 111 Fifth Ave. New York City

JAIL AND HOSPITAL INCLUDED IN PLANS FOR NEW STATION

Chicago's New Union Depot to Cost Ten Millions of Dollars

CHICAGO—Every thing from jail to movie theater is provided for in plans of the main building of the new union station here, construction of which already is under way.

The miniature jail has been designed for the safe keeping of prisoners being transported from one city to another for trial. In the basement, the plans show, will be a laundry for the use of immigrant women. In another section of the building plans have been made for the installation of a morgue.

A dispensary and hospital to care for either railway employees or for travelers will be located in another section.

Among the other features planned for the station will be dry goods and wearing apparel stores, florists' shops and the latest devices for announcing the arrival and departure of trains. The total cost of the main building will be $10,000,000 and the construction work will take 18 months.

BIG BARLEY YIELD REPORTED

ROCHESTER, Minn.—Charles Ihrke, who runs a farm a few miles from here, threshed 923 bushels of barley from an 18 acre field, or at the rate of 51 bushels an acre. August King, living near Ihrke, reports a barley field of 35 bushels to the acre. These yields, however, are said to be exceptional, as that section was fortunate in getting showers at a time when other parts of the country were suffering for lack of rain.

Iron ore of an excellent quality and of promising quantity has been discovered on the north shore of Cuba.

SHE'S ON THE STAGE, NOW

Mrs. Julia Lydig Hoyt, New York society leader, who a few years ago went on the stage, is in her second season with the Stuart Walker Stock Company in Indianapolis this summer. She is working hard and is popular with the audiences.

USE 4,000 CORDS OF BOLTS

LADYSMITH, Wis.—Over 4,000 cords of basswood bolts have been used at the plant of the Menasha Woodenware company here since operations started last spring. Most of the bolts were cut into material suitable for candy pails and heading.

VOLSTEAD LAW MAY BE ISSUE IN 1924 MICHIGAN ELECTION

State Anti-saloon League Out to Beat Couzens for Re-election to Senate

DETROIT.—Only the decision of Senator James Couzens not to seek re-election next year can halt the gaining momentum of the Volstead law as an issue in Michigan's 1924 campaigns, according to opinion among political leaders and wet and dry advocates. Divisions of the latter already are in the field.

Senator Couzens declared for enforcement of the Volstead law, but also for modification of its interpretation of intoxicating liquor. He holds that beer of less than five percent alcoholic content is not necessarily intoxicating.

The declaration resulted in a controversy between the senator and national officials of the Anti-Saloon league, and the state Anti-Saloon league announced its intention of going out to "beat Couzens." The organization hopes to do it either by supporting one of the avowed candidates who is considered dry, or by putting its own candidate into the race, it is indicated in present activities.

Dry leaders assert that prohibition sentiment is stronger in Michigan now than it was in 1916, when an amendment to the state constitution placing Michigan in the dry column was adopted 353,378 to 284,754. Wet proponents counter with the assertion that the rapid growth of industrial communities has stored up an immense volume of votes favoring repeal of the dry laws. The drys claim that the farmer communities and the larger counties, previously dry, will stay dry. The wets reply that a few precincts in Detroit or the other industrial centers will poll more votes than entire out-state counties, and that if Senator Couzens decides to run he will sweep Detroit and other manufacturing communities.

Luren D. Dickinson, former lieutenant-governor and an active dry worker, issued a warning to his forces that the issue must be met in the primary.

WONDER OF WONDERS! HOBO ASKS HOUSEWIFE FOR SOAP

MONROE, Wis.—A Monroe housewife thinks the millenium is here.

Cautiously she went to her door on seeing a tramp approach the house.

"What will you have?" she questioned, with visions of being asked to prepare a meal or donate some old clothing.

"Soap, ma'm," was the astonishing reply of the Weary Willie, whose tribe is supposed to be shy of water. "I always carry some, but I happen to be out."

In a daze the housewife procured several varieties of soap, the tramp selected a colored, sweetly scented cake and went down the street toward a pool, where he said his ablutions were to take place.

Australia has more places of public worship in proportion to population than any other country.

You'll Get Rid of Blackheads Sure

There is one simple, safe and sure way that never fails to get rid of blackheads, that is to dissolve them.

To do this get two ounces of calonite powder from any drug store—sprinkle a little on a hot, wet cloth—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear. Blackheads are a mixture of dust and dirt and secretions that form in the pores of the skin. The calonite powder and the water dissolve the blackheads so they wash right out, leaving the pores free and clean, and in their natural condition.

COMMERCE BODY TO HELP VETERANS IN GETTING POSITIONS

Businessmen to Extend Aid to Disabled Men Trained in Vocational School

MILWAUKEE, Wis.—The Association of Commerce of Milwaukee is preparing to aid close to 500 world war veterans from this district who have been in training at the government vocational school for disabled soldiers in finding positions. The Chamber of Commerce of the United States recently voiced the necessity of making places for men who now are being trained for positions in business, trades and the professions.

Dr. W. A. Seifert of the local veterans bureau has expressed himself as being favorably impressed with the work of the vocational training for disabled soldiers. He says that already 30,000 have been placed and statistics show that 20,000 are earning more money than did they before the war.

The veterans' bureau now has 100,000 men in training throughout the country. Without sight or without an arm and other handicap, many of these men are preparing themselves to become actively engaged in work for which they are now best fitted.

The greater number of the 180,000 disabled veterans have been in training for two years and many are now ready to go into life work. Others will be graduated within a very short time.

THE SWASTIKA EMBLEM

The subject of the Swastika symbol has given rise to a protracted discussion abroad. There are some in this country who claim that it originated with the American Indian. The latest contribution to the question is that of Hanit Krishna Deb, in the "Journal" of the Asiatic society, Bengal. He suggests that it is a modification of the mode of expressing the ancient Hindu syllable Om, which is used in religious rites. This, a pothook with square ends, was duplicated, one across the other, to form the Swastika, meaning "bringer of blessings," which goes back in India to the seventh century, when it was used as a cattle mark. Another reference is well before 528 B. C. It is found on gold leaf on a vase with relics of Buddha, and it appears on the edicts of Asoka, (272-232 B. C.). The earliest example known is on a spindle whorl from the third city of Troy, about 1800 B. C., and it is frequent in Greek vases about 600 B. C.

OLD RACE HORSE STAGES RUNAWAY AS GONG SOUNDS

MINNEAPOLIS, Minn.—Nazareth, an old and blind race horse, got into trouble through memories of his youthful sporting days.

A street car gong sounded at his flank. He thought it was the starter's bell and dashed madly down Hennepin avenue, entirely out of control, with Michael Engebretson up.

Nazareth crashed into a flivver, J. H. Keller, Alden, Minn., was hurled through the windshield and his wife badly cut and bruised. Engebretson lit on top of the car, but Nazareth escaped unscathed.

There are about a half dozen tremendous shoe concerns throughout the country. One of them last year produced about 38,000,000 pairs of shoes, which were valued at something over $100,000,000.

MASCOT OF INVADING NET STARS

Mrs. R. C. Clayton, one of the quartet of English tennis stars now playing in America, proudly displays "Bonzo," stuffed dog mascot of the team, at Seabright, N. J.

CROWING OVER THE CAT

The crow is a wise and self-possessed bird and is not to be disturbed by such a thing as a cat, an animal the presence of which will usually disturb any other bird to the utmost. A nature observer saw a cat endeavoring to catch one of three crows in a field. The birds paid little or no attention to it and every time the feline jumped at one of them the intended victim would merely slip aside with ease, but at no time was the cat more than four yards from the birds and yet he could never get near enough to catch one. Several days later the same black cat was seen stalking a solitary crow that with his back turned was feeding on the ploughland. Suddenly the bird looked around and saw his enemy. The crow gave a shout of rage and, leaping into the air, hovered several feet above the cat and then made swoops to within a few inches of his nose and whiskers. All the while the cat sat back on his haunches as if attacked by a dog.

Finding that he would not move, the crow went higher and began to trumpet caws for all he was worth. Then, behold, from different quarters came a reinforcement of two crows, shouting encouragement to the solitary warrior. Having joined forces, the three swooped down close to the cat and, fluttering their wings, sang their hoarse battle songs. Whereupon the cat turned tail, walked, trotted, galloped and finally bolted headlong. The triumphant crew pursued him right into the street two hundreds yards away and then abandoned the chase.

VILLA SLAYER IN JAIL

MEXICO CITY.—Jesus Salas Barraza, federal deputy and confessed participant in the assassination of Mexico's notorious bandit, Francisco Pancho Villa, was in prison here Sunday night awaiting trial.

CABBAGE CROP OF 1923 BELOW THAT OF PREVIOUS YEAR

Last Year's Acreage One of Largest in U. S.; this Year's Crop 13 Per Cent Off

MADISON, Wis.—The cabbage crop in Wisconsin is forecasted to be 13 per cent below last year's production, according to the state and federal crop reporting office's announcement Tuesday. The lower production is due chiefly to the crop being in poorer condition than a year ago, this year's condition of 88 per cent being 7 points below last year. The forecast is 141,000 tons as compared to 163,000 tons last year.

Last year's cabbage acreage in Wisconsin was one of the largest on record in the state. With poor prices for cabbage last fall, a marked decrease in acreage might have occurred, but the higher prices that were paid for cabbage taken out of storage have undoubtedly influenced farmers to make only a slight reduction. This year's acreage is 3 per cent less than last year. In Racine county, the largest growing county, the acreage has increased 2 per cent. Outagamie county, the second largest cabbage county, has maintained practically the same acreage as last year. A reduction of 10 per cent has taken place in Kenosha county. In Fond du Lac and Pierce counties the cabbage acreage has been reduced 6 per cent and 25 per cent respectively.

The preliminary estimate of the acreage of late cabbage in New York state shows an increase of 6 per cent. Condition in New York state is below average, being reported as 80 percent, or 6 points below the average condition for the past nine years. New York and Wisconsin lead all other states in growing cabbage.

Except in the northern part of the state, pastures in Wisconsin were short and dry. Condition in the southwestern part of the state is reported as low as 48 per cent of normal. Generally, pastures had been grazed short and failed to make much growth before droughts developed. Rainfalls of late July and August, together with cooler weather, are expected to bring about an improvement.

Fire blight, which seems to be very general in the state, and dry weather, have lowered the condition of apples to 75 per cent of normal. The condition indicates a crop of the same size as last year. The condition of commercial orchards is better, being 80 per cent.

SAYS HE ADMITTED CRIME IN ORDER TO DIE IN CHAIR

CAMDEN, N. J.—Claiming a confession made to county authorities a year ago in which he said he killed 7-year-old Ida Kramer of Woodbury, is a fake, G. E. Monroe, 20, who is serving a life sentence for the murder of the girl, will ask for freedom, his counsel said on Sunday.

The attorney said he had talked with the boy, who declared he did not kill the girl and never saw her. He said he was in a melancholy state of mind at the time of his confession and wanted to die in the electric chair. He said he did not desire to commit suicide and he looked about for means to accomplish his object.

A woman was in jail on suspicion at the time he made the confession. She was then released.

The boy said to his counsel: "I could not do anything like that. I like children too well for that. I did not go to the electric chair and I do not want to stay here in prison."

An acre of tobacco plants yields about 700 tons of tobacco.

REPORTS OF WHEAT OVER-PRODUCTION DECLARED UNTRUE

Rail Executives Confer With Wheat Men on Reduction in Freight Rates

CHICAGO, Ill.—While a research committee of the wheat council of the United States and the United Chamber of Commerce Monday announced reports of over-production of wheat were exaggerated and railroad executives in conference with Omaha businessmen said they would further consider the proposal to reduce freight rates on wheat, the price of that cereal advanced in the Chicago market to $1.01, an increase of six cents.

Railroad executives who recently refused to make rate reductions in freight on wheat were asked to reconsider their action by the Omaha Chamber of Commerce. The executives were reported as agreeing to consider the matter further and communicate later with the Omaha commercial organization.

The increase in the market price of wheat, the best since July 1, was estimated as adding $50,000,000 value to the wheat crop.

INDIAN CHIEF, 103, DIES

GLACIER PARK, Mont.—Chief Sporty White Grass, aged 103 years, one of the oldest full-blood Indians in the United States, died Monday at the Glacier National Park reservation.

He was a personal friend of the late President Harding. Chief White Grass will be buried on the Glacier National Park reservation, with elaborate tribal ceremony.

15,000 LOST IN HASTINGS FIRE

HASTINGS, Minn.—Fire caused damage of $15,000 at the Kimmes & Eilberg, Inc., garage here. The fire was caused by lightning.

WHAT'S AN OCEAN TO THEM?

These youngsters, Dora Schuft, 13, and her cousin, Heinz Borchert, 8, traveled all the way from Berlin to Minneapolis all by themselves. They were tagged with numerals issued by immigration officials.

The staple grocery business of the United States is estimated at $20,000,000,000 annually.

EUROPEAN WASPS BROUGHT HERE TO FIGHT CORN BORER

Experiments With Enemy of Corn Borer to Cover Period of Several Years

BOSTON.—With the release of 1,000,000 tiny wasps, termed habrobracons in this vicinity, experts of the Bureau of Entomology, United States Department of Agriculture, hope they have set in motion an agency that will result in the destruction of the corn borer and the saving of millions of dollars to the farmers. The success of the experiment, entomologists say, will not be determined until observations have extended over a period of years.

Imported from France, in which country and in Italy the habrobracon has proved a relentless enemy of the corn borer, four colonies of the insects were bred at the government laboratories in Arlington. Whether the wasp can survive and flourish in the colder and more uneven climate of New England and the United States in general is a question still to be determined.

The corn borer itself is an imported species, having come to America in shipments of European broom corn. Its ravages first attracted serious attention in 1917 in Eastern Massachusetts. Since that time it has worked steadily westward. Last year the borer caused damage estimated at $1,000,000 in this state alone. The corn borer, which in appearance resembles a caterpillar, not only attacks corn but inflicts injury upon crops of beets, celery, beans, rhubarb, potatoes, peppers, buckwheat, and clover. Altogether, investigators have found the borer guilty of damaging 211 varieties of plants.

The habrobracon is said to injure no crop, confining its attacks to the borer, the gypsy and the brown tail moths. The wasps are very small, with bodies about the size of the head of a pin. The female wasp attaches itself to the corn borer and lays its eggs on it. These, when they develop, at first paralyze and later kill the borer.

The battle between borer and habrobracon began with the release of colonies of 250,000 habrobracons each in Saugus, Cambridge, Malden and Arlington. Further experiments are being made by government entomologists with a view to finding other insects which may check the spread of the borer.

LINEMAN RECOVERING FROM 3,500 VOLT SHOCK

NEW ORLEANS—James Leevy, 52, a lineman, was reported recovering at a hospital from the effects of shock that carried 3,500 volts of electricity through his body while repairing an arc circuit. Leevy, unconscious from the shock, hung by a strap at the top of a high pole for several minutes before being rescued by another lineman.

TIMBER PIERCES DRIVER IN MOTORCAR CRASH

VIRGINIA, Minn.—John Hren of this city is reported dying at a hospital here as a result of injuries received when an automobile plunged through a fence on the Virginia end of the Eveleth-Virginia highway.

A two-by-four timber, part of the fence railing pierced the front cowl of the automobile and passed through the abdomen of the driver, also penetrating through the rear of the machine.

Passing automobilists found the injured man. Physicians at the hospital hold no hope for Hren's recovery.

Drink "Grape Bo-kay"

A sweet, luscious beverage—rich in the flavor of the grape itself—sparkling—tempting—refreshing. At all fountains or by the case from your grocer.

Makes a delicious summer punch when mixed with fresh fruits—or may be used to give flavor to ices and various frozen delicties.

EUROPE NEAR WAR SAYS SMOOT UPON RETURN FROM TRIP

Utah Senator Back With Pessimistic Picture of Conditions Abroad

NEW YORK.—Another war may break in Europe, and unless prompt steps are taken to avert it, it will not be long deferred, said Senator Reed Smoot, republican, Utah, upon arriving here Monday on the Leviathan.

Like Senator Hiram Johnson, Senator George H. Moses and Senator Smith W. Brookhart, the Utah senator returned from abroad with a pessimistic picture of economic and political conditions.

Studies German Income

Senator Smoot went to Europe at the behest of President Harding to study Germany's income before the war, her present income, and the cost of her present government, with a view to working out her ability to pay her reparations bill. He said he had obtained the information he sought, except for one or two points, and would report to Washington soon.

Germany, he said, is on the verge of revolution, and unless there is some immediate relief it will come before winter.

He brought bad news for the American farmer, he said. He found bumper crops in prospect everywhere abroad.

"Not only in the British isles," he said, "but in France, Germany, Belgium, Holland and in every country I heard from, crops of extraordinary abundance are reported. With a large crop in view in the United States, it appears likely that there will be a large overproduction, with corresponding deflation for the farmer."

Hopes for Isolation

Senator Smoot said he hoped America could remain free of European entanglement, in view of what he had seen. Asked if he wanted to see America enter the world court, he answered that it would not be possible with the court in its present form.

"With the modifications suggested by President Harding," he said, "the United States could, I believe, become a member and could exercise helpful influence in restoring the European situation."

He said it was possible, in his opinion, for the troubled countries of Europe "to set their own houses in order," but to accomplish this they must bend every energy to the task at once. Otherwise, Europe faces certain war.

HO, HUM, WHAT'S $15,000,000?

Peggy Hopkins Just can't keep away from rumors of her own marriage to someone or other. This time the whispers have it that she might wed a man worth more than $15,000,000. Peggy denies this, and says her contract won't permit her to marry, and that furthermore she has no intention of marrying, contract or not!

SCORE OF TOURISTS KILLED IN FRANCE

TARBES, France.—Twenty-three tourists were killed in a motor bus accident at Saint Sauveur, a Pyrennees resort about 25 miles south of Tarbes.

Frogs have been discovered which bark like dogs.

BADGER PHYSICIANS MEET AT MILWAUKEE EARLY IN OCTOBER

MILWAUKEE, Wis.—This city will be host to more than 700 Wisconsin physicians who will convene here for the 77th annual meeting of the State Medical Society on October, 3, 4, and 5. Essays and lectures by prominent physicians from all parts of the country will constitute the program for the first two days. Cancer, tuberculosis, diabetes and maternal welfare are among the subjects that will be dealt with.

The session on Friday, October 5, will be devoted to the discussion of clinical cases. All sessions of the convention will be held in the Milwaukee Auditorium.

The meeting will close with a banquet and election of officers for the following year. The present officers of the society are First Vice-President; Dr. J. I. Yates, Milwaukee, second vice president; Dr. S. S. Ripon, treasurer.

DENY STUTZ PETITION

NEW YORK.—The application of the Stutz Motor company, to re-list its stock on the New York Stock exchange was denied.

8-HOUR DAY IN EFFECT MONDAY IN GARY STEEL MILLS

CHICAGO.—Several hundred men in the open hearth and other departments of the steel mills at Gary, Ind., and South Chicago, were the first beneficiaries Monday when the eight-hour shift went into effect.

Hours in other mills throughout the country are being readjusted.

WILL BE TROUBLE TO HUSK THIS CORN; EARS 7 FT. HIGH

DE KALB, Ill.—A stalk of corn was brought to De Kalb Monday and was placed on exhibition. It is fourteen feet high and two ears are seven feet high on the stalk. The corn was raised south of Elburn. There are twenty acres in the field and the farmers are beginning to wonder how they can reach the corn to husk it.

ST. LOUIS SEES 4 BRILLIANT METEORS IN ONE NIGHT

ST. LOUIS, Mo.—Meteors of unusual brilliance were seen Monday night. One towards the northern horizon seemed about the size of a toy balloon. Shortly afterwards one dropped into the southern horizon, followed by one taking a long course from north to south across the eastern horizon, leaving a trail of smoke. This was followed by a fourth.

FALLING MARK LURES A HOST OF REFUGEES TO GERMAN CAPITAL

Tolerant Attitude of Government Also Factor in Drawing Radicals to Berlin

BERLIN. — By The Associated Press.—Germany is rapidly displacing Switzerland as a center for all sorts of political agitators and refugees. They are attracted here by the falling mark and the tolerant attitude of the government. Switzerland rapidly is losing favor with radicals of all sorts. Persians, Turks, Indians, Egyptians, Arabs and Tunisians are so numerous in this city that they have united in the erection of a Mohammedan mosque in one of the best residential sections of west Berlin.

Mohammedanism gained considerable foothold in Germany during the war. Many Mohammedans who were fighting with the Russian forces were taken prisoners by the Germans, or voluntarily gave themselves into German hands, because they did not wish to fight against the Islamic brothers, the Turks. These Mohammedans were treated with great consideration by the Germans, who placed them in a camp at Wuensdorf, a Berlin suburb. A mosque was erected there for them, and they were given every opportunity to live in accordance with their religion. In fact, they were guests of Germany, rather than prisoners.

The missionary who is directing the construction of the new mosque belongs to an Indian Islamic movement which has over 500,000 adherents and is seeking to make the followers of Islam less fatalistic, without altering in any way the teachings of the Koran. These reformers are called Ahmadiaten, and seek to win their fellow-religionists away from the blind acceptance of the phrase, "Whatever happens is the will of Allah." In other words, they would persuade Mohammedans throughout the world that they need not submit to Christian domination; that a holy war is capable of freeing Islam if the followers of the true faith will throw off the spirit of the east and act with greater independence.

RECEIVERSHIP ASKED FOR EQUITY PACKERS

FARGO, N. D.—A third attempt in less than eight months to put the affairs of the Equity Co-operative Packing company, of Fargo into the hands of a receiver, was started in Valley City Monday it was revealed here. Judge M. J. Englert then appointed George E. Brastrup of Courtney, N. D., temporary receiver and set Saturday, Aug. 18, as the date on which to show cause why such receivership should not be made permanent. Louis Sall of Plummer, Minn., a creditor to the extent of $3,800, is one of the petitioners.

RYE 70 INCHES HIGH

CLINTONVILLE, Wis.—The Meisel farm, near this city, boasts an exceptional high stand of rye. Some of the stalks measure seventy inches, while the average length is sixty-four inches. Kernels average from thirty-six to forty for each stalk.

SWEDEN QUESTIONS IMPORT OF LEAGUE IN WORLD AFFAIRS

U. S., Germany and Russia Must Join to Make League Universal Says Note

STOCKHOLM.—By The Associated Press.—The Swedish government has just published its reply to the inquiry circulated by the general secretary of the league of nations as to whether the various members of the league favored a special pact for general reciprocal guarantees, stating that, in its present form, and under present conditions, the government cannot endorse the proposal.

The Swedish reply says that as long as the United States, Germany and Russia are not members of the league it cannot be looked upon as having a universal character. Although the league has gained in power and authority during its three years of operation, it cannot yet be considered strong enough to deal effectively with the larger international problems which are at present menacing the peace of the world, and Sweden thinks that the guarantee system proposed would be of little value without the powerful authority that might come from universality of membership.

The government holds that if Sweden, with her stabilized relations with foreign countries, were to sign the guarantees proposed she would expose herself to comparatively larger risks than those of other states. It would be impossible, says the reply, for a Swedish government, under the present status of political unrest in the world, to propose to the representatives of the people that they enter into international obligations which might lead to military measures not compatible with Sweden's own vital interests and national independence.

Meanwhile, the government repeats a recommendation previously made to the effect that compulsory arbitration should be provided for all disputes of a judicial nature. And it hopes that conditions may develop to such a point in the future that any disturber of political peace will be considered the enemy of all nations, and that such a disturber will be punished by the joint action of all nations.

PROMOTE INTERSTATE ROADS

BISMARCK, N. D.—Seven interstate trunk highway lines between North and South Dakota will be promoted by highway commissions of the two states, as a result of a conference here between members of the South Dakota commission, the commission's chief engineer and State Engineer Black of North Dakota. It is the intention, Mr. Black said, to promote interstate communication by development of selected roads on either side of the state line.

TRAIN WRECKS AUTO

SLEEPY EYE, Minn.—John Ebenhop of this city had a narrow escape from injury when his new automobile was struck by a freight train here. The machine was wrecked but Ebenhop escaped injury.

Hoeschler Bros.

LAWYERS TOP LIST AS SKYSCRAPER TENANTS

Twenty Percent of Renters in Tall Buildings are Members of Legal Profession

CHICAGO, Ill.—By The Associated Press.—Twenty per cent of the tenants in American skyscrapers are lawyers, according to a survey made for the National Association of Building Owners and Managers by W. R. Ballard of Boston, Mass.

The survey covers typical tenantry of 72 skyscrapers, and is said to be the first one of its kind ever made. Of the total of 3,733 tenants canvassed, 833 were found to be lawyers. After lawyers come investment houses with 370, and real estate is a close third with 352 tenants. The survey will be used in aiding prospective builders to determine the proper way to lay out floor space.

The tenants using the most space are banks and trust companies, with oil concerns next and insurance companies third, the report showed. Thirty-eight different classes of businesses were found to be housed in the various skyscrapers.

SUGAR WILL BRING $70,000,000 TO HAWAII'S COFFERS IN 1923

HONOLULU.—By The Associated Press.—"King Sugar," monarch of Hawaiian products, will pour approximately $70,000,000 into the territory this year, an increase of almost 40 per cent over the gross return from this product last year, according to the estimates of prominent planters.

All except a few mills in the territory have completed their grinding for the season, and the combined output is certain to exceed 500,000 tons, a decrease of approximately 100,000 tons from the production of last year, which is laid to the plantation laborers' strike of 1920, when most of the 1923 crop was planted.

The average price for last year's crop, however, was $92.96 a ton, as compared with this year's estimated average price of between $130 and $140 a ton.

Planters here have pointed out that the value of the Hawaiian sugar crop approximately equals the production of silver in the United States, which usually averages between $50,000,000 and $60,000,000 annually, although it rose in 1915 to $77,036,170.

With the large increase in the sugar income, it is estimated that Hawaii's exports to the mainland United States this year will aggregate $100,000,000, as the pineapple pack will bring $25,000,000 and other miscellaneous products approximately $5,000,000.

Steam vessels are usually six times as long as they are wide.

WITTENBERGS WIN SENIOR PLAYGROUND INDOOR CHAMPIONSHIP

RITTER'S HOME RUN TURNS TIE INTO VICTORY

Frasers are Defeated in Fifth Contest for City Title Monday Night, 4 to 3

WITTENBERGS COME FROM BEHIND TO COP BATTLE

Games End Most Sensational Series on Record

TED RITTER'S home run in the last of the eighth inning broke the tie score and gave the Wittenbergs the championship of the Playground Indoor baseball league for the championship in the senior division Monday night. The final score was 4 to 3, as those of the four former games, 4 to 3.

1,500 Fans Out

A crowd of what officials said would be 1,500 fans saw the fifth game of the series. Last night. And the cheering sections were packed to the rafters. Each team had its rooters, supporting the west side and north side champions, but it was the Wittenbergs who had the best of the cheering. The team had a big following. Who is second baseman, is playing a fielding position. Who is Chet Ritter, who had been playing in many games, was at the helm at the Wittenberg shortstop.

The Frasers were into the lead and ended the first of their scores in the second inning. A hit by Tuffelmire, a walk and Freeman's home run scored Tuffelmire and Freeman. From then on it was a battle. Like the other games of the series, Bert just before it became too dark to see the ball. Both teams were unable to hit Bert and were unable to score for the winning runs in the ninth inning. Wolf was relieved in the last three innings by Ritter.

Ritter got his two hits of the game. Mayer made 2. In pounding out his hits Ritter broke Wolf's control. But the latter settled down after the fourth inning as those of the four former games, 4 to 3.

LANSING TRIMS CALEDONIA CLUB ON SUNDAY, 8-0

LANSING, Iowa—Lansing increased Caledonia of Lansing's defeat yesterday to the tune of 8 to 0.

Lansing's [illegible] Earl Hilbert [illegible] Caledonia to [illegible] Jack Mayer [illegible] in the first inning and was forced to retire. He left the game [illegible] Hilbert left Wilson [illegible] Lansing.

Both pitchers were hard to solve, each allowing but three hits. Lansing's scores came in the first and fifth innings. A hit by Tuffelmire, a walk and Freeman's home run scored Tuffelmire and Freeman. From then on it was a battle. Like the other games of the series, Bert just before it became too dark to see the ball. Both teams were unable to hit Bert and were unable to score for the winning runs in the ninth inning. Wolf was relieved in the last three innings by Ritter.

Ritter got his two hits of the game. Mayer made 2. In pounding out his hits Ritter broke Wolf's control. But the latter settled down after the fourth inning as those of the four former games, 4 to 3.

IOWA FARMER GIRL DIES FROM RATTLESNAKE BITE

KEOKUK, Ia.—Minnie Albertz, [illegible] Lee county farmer, died [illegible] from the effects of a rattlesnake bite. The child was playing in the cane when struck. Its Waterland home, an old one, is believed to house a den of snakes.

WITH THE MAJOR LEAGUES

CHICAGO, Ill.—By The Associated Press.—Lee Meadows, Pittsburgh National twirler, stopped the winning streak of the Robins in Brooklyn on Monday, with a 5 to 2 victory, and won the final game of the series on Ebbett's field. For the first six innings the Robins failed to cross the plate a single time. Not only that, but Tommy Griffith was the only Dodger who even reached first base in the first six and he drew a base on balls.

The Cleveland Americans and the Philadelphia Athletics broke even in Philadelphia in a double-header, the Athletics winning the first, 14 to 3 and the Cleveland team taking the second, 8 to 6.

In Washington the Chicago Americans and the Senators broke even in a pair of hard fought games, Washington team won the first game and the Chicagoans the second. No other games were scheduled.

Johnny Mostil, star center fielder of the Chicago Americans, is substituting at third base, owing to an injury to Bill Kamm's knee. Johnny is doing good work around the hot corner. Kamm is expected back in the lineup when the team comes home Wednesday.

Sam Rice, by poling a double and a triple, helped Washington to win the the first game of the double-header. Earl Sheeley's smash with a man on decided the issue in the second game, which Chicago won.

Tris Speaker's homer with two men on base, drove Harris off the hill and enabled Cleveland to win the second game of a double-header from Philadelphia, which pounded the ball hard and drove Coveleskie to the showers in the first game, and won a one-sided contest.

Beals Becker of the Kansas City club of the American association drove out his tenth consecutive hit in his first trip to the plate against Milwaukee, but with a change of pitcher, Beals was called out on strikes when he was set for his eleventh straight hit.

K. V. LEADERS RUMBLED, 11 TO 2 BY LA FARGE NINE

Viola Takes Measure of Westby Club on Viola Diamond, 5 to 3

League Standings

	Won	Lost	Pct.
Bud	10	4	.714
La Farge	9	5	.643
Westby	8	6	.572
Soldiers Grove	7	7	.500
Viola	6	8	.428
Gays Mills	2	12	.143

Games Next Sunday

Bud at Westby.
Viola at Gays Mills.
Soldiers Grove at La Farge.

E. M. JEFFSON, Westby
R. F. CALHOON, La Farge

With the three leaders separated only by a single game, the race for the pennant in the Kickapoo valley league is drawing into a tight finish.

Bud, the leaders, were mowed down by the La Farge aggregation Sunday, 11 to 2, leaving the latter but one game back of the nine representing "Bennett's Corners." The Bud infield was entirely off form and at times showed a streak of buck fever. Calhoun accepted six chances in center field without a miss.

Westby went down before the Viola attack Sunday, 5 to 3, at Viola. Dahlby of Westby to hit the Viola pitcher, was responsible for the defeat. Viola scored three runs on sacrifice flies to the outfield.

Soldiers' Grove won from Gays Mills, 4 to 2.

90,000 PATENTS RECORDED AT CAPITAL MONTHLY IN 2 YEARS

WASHINGTON, D. C.—The most mistaken man in the world is he who insists "there is nothing new under the sun," according to officials of the patent office. For the last two years applications for registry of patents and trade marks have averaged 9,000 per month. Despite the increased flow of new ideas, the clerical work of the bureau has kept entirely up with it.

The value of farm crops and livestock in Great Britain last year was $2,000,000,000.

BADGERS BEAT ILLINOIS, 3 TO 0 FIRST GRID GAME

BATTLE CREEK, Mich.—Special—At last! Football is here.

In the first interstate football game of the season in the citizens' military training camp at Camp Custer on Sunday, Wisconsin defeated Illinois by a score of 3 to 0. A drop kick by Red Carroll of Eau Claire Normal clinched the victory for the Badgers. G. W. Simpson, coach of the Eau Claire Normal football team is also coach of the Wisconsin team here.

Michigan will be played by Wisconsin next Sunday.

Puzzling Plays

By Billy Evans

THE PLAY

The president of a minor league wrote me about this play, requesting my opinion of several situations that might arise as a result of the incident.

With the bases filled and two strikes and two balls on the batsman the pitcher delivered the ball, which struck perhaps two feet in front of home plate. The moment the ball struck the ground the umpire yelled "Ball three!"

After striking the ground it took a peculiar english, and despite every effort of the batsman to get out of the way, the ball struck him on the leg.

The moment the ball hit the batsman the manager of the team at bat claimed the batsman was entitled to first as of despite the fact that the umpire had ruled the pitch a ball, making it ball three.

The umpire changed his decision and permitted the batsman to go to first, forcing a run over the plate. That run proved enough to decide the game. The team in the field protested.

Did the umpire make the proper ruling in doing when he allowed the batsman to go to first base, forcing a run over the plate?

Did the fact that he had already made a decision on the pitch, ruling it a ball, make void the hitting of the batsman? If such a pitched ball, after it hit the ground, bounded over the heart of the plate about waist high, would that make it a strike?

THE INTERPRETATION

The umpire made the proper ruling in permitting the runner to go to first after being hit by the ball though he had ruled it "ball three" the moment it struck the ground.

He erred in dividing the play too quickly and had no way out of it than to reverse his first ruling.

A ball that strikes the ground in front of the plate has no chance of ever being a strike, though it should bound over the heart of the plate waist high.

GOVERNMENT WON'T APPEAL RAILROAD CASE

WASHINGTON, D. C.—Attorney General Daugherty announced that the government will not appeal from the recent decision of the United States court at St. Paul, in which it was held that the interstate commerce commission had authority to consent to the lease and stock ownership of the Central Pacific railroad by the Southern Pacific railroad.

FIVE LITTLE PIGS GO TO MARKET IN AN AIRPLANE

OMAHA, Neb.—Five little pigs came to market in an airplane Monday. The porkers were shipped by air to the Omaha yards from Hooper, Neb., by Peter Parker, Jr. They weighed an average of 150 pounds each and topped the market at $7.75. The plane made the trip in forty-five minutes.

TRIBE SPLITS TWIN BILL WITH MACKS

Covey Chased in First, 14 to 3; Speaker's Homer Cinches Second, 8 to 6

GRIFFS AND SOX DIVIDE PAIR OF GAMES, 4-5, 3-2

Meadows' Curves Halts Dodgers, 5 to 2

PHILADELPHIA—Cleveland split even on a double header with Philadelphia on Monday, winning the second game, 8 to 6, after losing the opener, 14 to 3. The victory gave the Indians three out of four of the series. Speaker in the second game hit a homer with two on base, driving Harris from the mound, in the fourth inning. In the opening game the home team pounded the ball hard, driving Coveleskie from the mound in less than two innings.

The scores:

	R	H	E
Cleveland ..000 001 020—	3	6	5
Philadelphia 331 020 14x—	14	14	0

Coveleskie and O'Neil, Sewell; Heinach and Perkins.

Second Game

	R	H	E
Cleveland ... 102 500 000—	8	11	3
Philadelphia .110 000 040—	6	11	0

Edwards, Morton and Myatt; Harris, Wolff and Perkins.

Griffs 5-2; Sox 4-3

WASHINGTON. — Washington and Chicago divided a double header on Monday, the Nationals winnings the opener, 5 to 4, while Chicago took the second game, 3 to 2. Rice's heavy hitting gave Washington the edge in the first game. Sheely's home run in the eighth inning of the second contest with Mostil on base, settled the issue, Washington falling one run short in a ninth inning rally.

Scores:	R	H	E
Chicago .....200 010 010—	4	7	0
Washington .022 000 001—	5	7	1

Blankenship and Schalk; Zachary and Ruel.

Second game—

BROOKLYN.—Meadows did not allow a hit on Monday until in the seventh inning and Pittsburgh won the third and last game of the series, 5 to 2. Brooklyn won the first two games on Sunday. Score:

	R	H	E
Pittsburgh ..120 100 010—	5	9	0
Brooklyn ....000 000 110—	2	4	1

Meadows and Schmidt; Smith, Decatur and DeBerry.

SPORT BRIEFS

COLUMBUS, O.—Jack "Kid" Wolfe, Cleveland, and Frankie Jerome, New York, boxed twelve rounds to a draw decision. Each weighed 122 pounds.

MUNCIE, Ind. — "Tut" Jackson colored heavyweight, of Washington courthouse, O., knocked out Young Peter Jackson, colored, of Detroit in the fourth round of a scheduled ten round bout.

NEW ORLEANS, La.—"Midget" Smith of New York knocked out Eddie Coulon of New Orleans in the eighth round of a scheduled 15-round bout.

LOUISVILLE, Ky.—Tim O'Dowd, of Atlanta, featherweight, won a newspaper decision over Joe Paglina of Louisville in a twelve round bout.

PAPER INDUSTRIES EXCHANGE OPENS AT CHICAGO WEDNESDAY

CHICAGO.—Trading on the floor of the newly established paper industries exchange will begin here Tuesday, according to an announcement by John R. Mauff, executive vice president. New York and San Francisco will open Branch exchanges.

Mr. Mauff, who was recently given a leave of absence as executive vice president of the Chicago board of trade, to organize the new exchange, declared that it would eliminate waste in the paper industry and permit of greater public service.

MORVICH COMES BACK TO TRACK

Morvich, winner of the Kentucky Derby of 1922, has heard again the call of the cheering grandstands. His owner, Benjamin Block, of New York, has entered him in the Saratoga. And he's being groomed for other autumn events.

FIRPO TO FIGHT JOE DOWNEY; K. O.'S CHARLEY WEINERT

PHILADELPHIA, Pa.—Luis Angel Firpo, contender for Jack Dempsey's heavyweight title, who Monday night knocked out Charley Weinert of Newark, N. J., in the second round, will leave Tuesday night for Indianapolis for his fight with Joe Downey.

At one of the largest watch factories in the world 50 leaves of bread are used every day for cleaning the delicate parts of watches.

BASEBALL IS DYING OUT IN PHILIPPINES

Manila League Only One Left; Blame Department of Instruction

MANILA, P. I.—Baseball, the American national pastime which was expected to replace cock-fighting here, is dying out in the Philippine Islands, and the department of public instruction, by its lack of interest, is blamed for the failure by a sporting writer in a local newspaper. The Manila league is said to be the only baseball organization in the islands in a flourishing condition today.

During the last five years, sporting authorities say, the department of public instruction has given no encouragement to baseball through the bureau of education. Prior to that time, it is said, the bureau of education was actively engaged in fostering the national game in the islands, with a view to eliminating the island sport of cock-fighting.

Teachers brought here from the United States, it is charged, do not play baseball and have little, if any, knowledge of the game or of athletics in general.

The Philippine Amateur Athletic Federation, according to dyed-in-the-wool baseball fans, is favoring indoor baseball over the outdoor game. It is pointed out that in the new P. A. A. F. athletic annual only three pages are devoted to baseball out of a total of 384 pages. Eleven pages are devoted to the rules of indoor baseball, while many additional pages are used for general information of the indoor game.

Filipinos, it is agreed, are as keen today as they ever were in regards to baseball. The players have developed into crack moundsmen, backstops, infielders and outfielders and while their hitting is weak, compared with American big league standards, they are fast developing their stick work.

Largest pyramid—that of Cheops of the Gizeh group—contains 89,000,000 cubic feet of masonry, and the total weight of the stone has been estimated at over 6,000,000 tons.

WHIPPINGS BRING MARTIAL LAW TO OKLAHOMA TOWN

Three Companies Sent to Tulsa as Result of Increasing Mob Violence

TULSA, Okla.—(By The Associated Press)—Martial law descended upon the city of Tulsa early Tuesday, by decree of Governor J. C. Walton, as the result of recent cases of mob violence.

The city passed under the rule of military authorities at 6 a. m. Three companies of infantry, equipped with automatic rifles, will enforce the martial law order under command of Adjutant General B. H. Markham. Two companies were sent from Oklahoma City and one from Okmulgee.

Only the police department and the sheriff's office will be superseded during the military occupation, in line with instructions from the governor, it was understood. The courts and other civil agencies are not expected to be disturbed.

Denial that the police were in any way involved in the affair has been made by city officials, including Mayor Newblock and Police Chief Eric Means.

Whippings have been numerous in Tulsa for months, only recently a woman, Mrs. Pearl Hagler, was abducted and a committee stood by a party of unmasked men, who applied acid to her body in an effort, she said, to make her divulge information concerning a "still" involving George Pennell, an oil operator. A few days after the affair the Tulsa Tribune published a story which said one of its reporters had been summoned to a room in a downtown office building where a dozen masked and armed men waited. The spokesman of the mob group, according to the reporter's account, stated that the men present were responsible for whipping Mrs. Hagler, charging that Mrs. Hagler and Pennell had been bootlegging Tulsa businessmen. Both Pennell and Mrs. Hagler subsequently denied such charges.

WINONA PRODUCE FIRM BANKRUPT; PRICE DROP CAUSE

The Hutchinson Rogers Produce company, 365 East Second street, Winona, was adjudged bankrupt in United States court in Winona on Monday following action of three creditors in filing an involuntary petition and the answer of the company admitting insolvency.

Referee in Bankruptcy Herbert M. Rogers, to whom the matter was referred for adjudication, has fixed Aug. 25 as the date for the hearing.

No official figures were available on the financial condition of the company, pending its action in filing a schedule of assets and liabilities. The company was incorporated with an authorized capital stock of $50,000 of which amount $10,000 was paid in.

It is understood that the finances of the company became embarrassed as a result of a series of fluctuations in the produce market which broke against the concern, and especially as a result of a drop in the price of eggs after a large quantity had been placed in storage at a fairly high cost in expectation of a further increase in prices.

ITALY REPORTS FEWER JOBLESS IN COUNTRY

ROME — A noteworthy decrease in the number of unemployed in Italy has been affected during the past year. At the beginning of 1922 the number of unemployed was 511,775, while at the end of last month the total was 213,500. Steps have been taken to introduce a number of agricultural reforms, including an improved method of tillage in order to further reduce unemployment.

"MOONSHINE" EXPLOSION PROVES FATAL TO ONLOOKER

TENAREANA, Ark.—Frank Rose spectator at the public burning two weeks ago in the town of Foulke, near here, of a quantity of "moonshine" liquor seized by a band of masked and hooded men, died in a hospital here of burns received when a keg of liquor exploded.

How Should He Have Put It?

Bill was complaining that he never seemed to make a hit with women. "I don't know how to say the right things to them," he said. "Flatter them," said Clarence. "Say something that they will like." "All right I'll try it." Soon after Clarence met a woman he knew, seen for years and he could see that she was trying to keep young. So he thought he'd say a grateful thing to her.

"You carry your age remarkably well," says he.

Well, the moment he said it he could see that he was in wrong. She was looking shily and getting red, so he said:

"Don't mind my little jokes—I never mean what I say. As a matter of fact you don't carry your age a bit well."

And then she killed him with a haughty look and sailed away without saying goodbye.

New Explorations

A scheme is on foot to explore British New Guinea, the hinterland of the island never having been traversed by a white man. The aim of the expedition is to determine the economic value of New Guinea to the Empire and to add to the sum of scientific knowledge. It is hoped to send out an advance party to select a suitable harbor as a base of operations. For the main expedition the personnel will include experts in entomology, botany, geology, mining, engineering, anthropology, chemistry, architecture, tropical agriculture and topographical surveying. The semi-labor staff will number eight, and so exacting are the conditions that out of 714 applications only three have been found to comply with them. The party will number 30 all told, with a police protection of 200

Scene from "The Breaking Point" at the Casino

MOVIES

"I AM THE LAW"

Wallace Beery, famous "bad man" of the screen, who has enacted more than one hundred roles of villainous character, is once again thwarting the minions of authority in "I Am the Law." As Fu Chung, the proprietor of a dance hall called "The Door to Hell," Beery gives a most impressive interpretation of a wily Oriental whose power is felt by all in the frozen wastes of the northwest. While Beery has portrayed the part of a sobbing Ghumanon before, he is said to have given one of the finest portrayals of his career in "I Am the Law" at the Riviera tonight.

CASINO TODAY

"The Breaking Point," which is now being shown at the Casino theater, shows Bessie Barriscale at the height of emotional acting. Particularly noteworthy is her portrayal of the scene in the picture in which her daughter is forcibly taken from her. Seldom have such dramatic qualities been expressed as in the scene immediately following this, in which Miss Barriscale registers suppressed emotion together with determination in such a way that it causes distinct heart throbs among the audience. "The Breaking Point" is played at high tension throughout, and the suspense of the audience is maintained to an extraordinary degree.

STRAND TODAY

William Russell plays a dual role in the William Fox production of "Mixed Faces," which will be shown at the Strand theater today. He portrays the part of Jimmy Colton, a live wire salesman of the Gotkyd Fire Extinguisher company, and the self satisfied, egotistical Judge Granger, candidate for mayor of a little town on the "vote for women," and reform platform.

Stupendous entirely new in double exposure photography is promised in this production, Russell appearing as both the leading characters in the story in a number of scenes.

"PENROD AND SAM"

That as thrilling and absorbing a story can be woven about the adventures and daily life of the typical American boy as about heroic adult figures is demonstrated in "Penrod and Sam," which is now being shown at the Rivoli theater. William Beaudine directed the picturization of this popular Booth Tarkington novel.

No writer in the world understands the boy as Booth Tarkington does, and this noted novelist has created, in Penrod Schofield, a figure as deathless as any of fiction. It is a name that has become a household word. Penrod is loved because he is a real boy.

And "Penrod and Sam" has been transferred to the screen by Director Beaudine with the same lifelike fidelity that characterizes the author's stories.

"THREE SEVENS"

Major Grey has faith in mankind, and he believed that kindly encouragement would achieve better results in dealing with convicts than harshness and brutality. The major's lovely daughter, his secretary and pal shared his views. Her feeling for Daniel Craig, known as "Three Sevens" in the prison where he was serving twenty years for a murder of which he was not guilty, was not based upon theory, however, but upon sentiment and admiration.

The story is told in "Three Sevens," an Antonio Moreno production, which will be shown at the Majestic theater today and Wednesday.

In escaping from the prison Craig unintentionally brought about the release of five desperate and hardened criminals. To undo the injury done society Craig resolves to devote himself to the recapture of the five. In carrying out this purpose he experiences a number of exciting adventures.

CASINO WEDNESDAY AND THURSDAY

Versatile Nell Shipman stars in her new picture, "The Grub-Stake," at the Casino theater beginning Wednesday and is also the author of this absorbing story of the frozen north. It is distinctly a dramatic picture, with a closely-knit and unusual plot concerning a girl who is down and out in Seattle and who innocently goes to Alaska in the hope of making a fresh start. What befalls her there constitutes the greater part of the picture and is a logical introduction of the animals without which no Nell Shipman picture is complete.

The animals, all owned by Miss Shipman, are the only North American wild beasts trained to appear in motion pictures and include deer, elk, bear, cougar, wild cats, lynx, wolves, coyotes, skunks, raccoons, weasels, chipmunk, mink, marmots, badgers, and many other species.

Unrest in Mexico is not preventing completion of that nation's great National theater. When finished it will be the most costly and magnificent theater building in the world and [illegible]

Benny Alexander and Joe Butterworth in "Penrod and Sam"

At the Rivoli Theatre tonight

KING BEN COMING BACK, REPORT AT BENTON HARBOR

BENTON HARBOR, Mich.—The rumor that a woman said to be Benjamin Purnell, has been recognized at the House of David grounds has not been verified, but Edward Bulley, a pillar of the Israelite sect, declared that Benjamin is coming back.

"When?" he was asked.

"This summer. In time to clear up all mystery. There will be no need of any more grand juries. Benjamin will explain all," he replied.

"Is Benjamin far away?"

"No, no. He is not."

Bulley had just returned from Detroit. His remarks were substantiated by Mary Purnell, wife of the missing leader.

35c EXCURSION

To Winona on Super-Steamer Washington, Wednesday, August 22. Leaves La Crosse 9:00 a. m., returns home 6:00 p. m. Children under 16 only 25c.—Advertisement.

SOLDIERS GUARD ZINC PLANT IN ILLINOIS TOWN

Union Organizer to Discuss Hillsboro Strike With Governor Small

HILLSBORO, Ill.—"White collar" deputy sheriffs, recruited from the ranks of those who formally petitioned military protection for the Taylor Springs plant of the American Zinc company, the employes of which went out on strike last Tuesday, and soldiers of ten units of the Illinois National Guard are protecting the plant against any probable attacks, while the workers who refused to join the strikers began their second working day since the beginning of the strike.

While leaders of the union insisted that there was no necessity for the guards protecting the plant, Governor Small was requested in telegrams, to keep the militia around the plant, as withdrawal of the troops would precipitate a clash.

Much importance has been placed in the conference between the chief executive of the state and Edward Karbine, organizer of the union, who announced Monday night that he would call on Governor Small at Kankakee Wednesday to discuss the strike situation.

INCLUDE ENGLISH SPARROWS AND WANDERING CATS

A movement has been started in Pennsylvania to enlist the aid of sportsmen in shooting predatory animals and birds before they cause destruction during the nesting and mating season.

Plans are being made to have every sportsman interested in game protection, spend some time ridding woods, fields and marshes of hawks owls, crows, weasels an other animals which kill ten times as much game as all gunners combined.

It has been said that the red squirrel alone will kill 200 birds a season, while the great horned owl destroys annually covey after covey of quail. Special efforts are being made to enlist the aid of game lovers against the crow, which is described as destroying individually more birds of all kinds, more birds' eggs and young poultry than any other bird that ever flapped a wing.

All game-destroying animals are classed by sportsmen and game lovers as outlaws. It is expected that special hunting clubs will be organized here and that members of established gun clubs will join in the movement by going into the woods and shooting as many game-destroyers as they can find.

EXCURSION STEAMER ON ROCKS; NONE INJURED

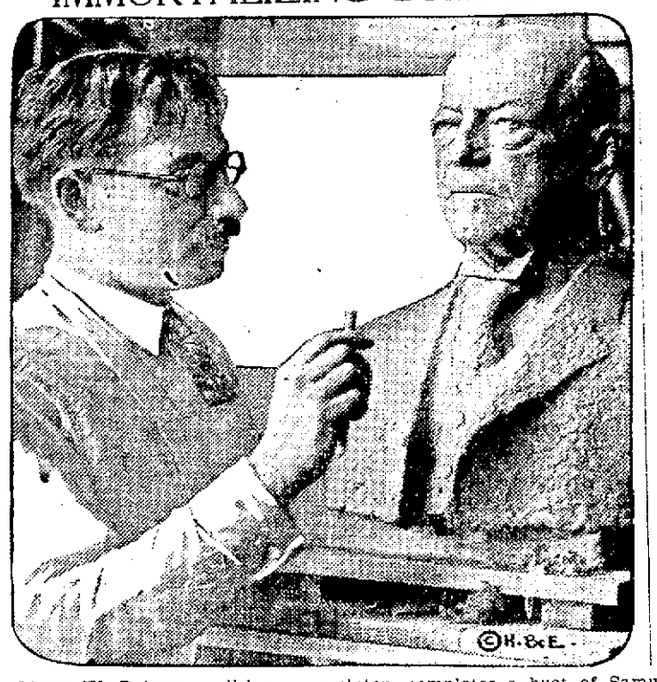
SOUTHAMPTON.—A party of 280 excursionists on the steamer Princess Ena had an exciting experience Tuesday when the vessel, in crossing from Southampton to St. Malo, France, struck submerged rocks in a dense fog. A hole was cut in the hull and a number of passengers were transferred to the boats. The vessel later proceeded under her own steam. Two lifeboats, containing eighty passengers, were reported missing at noon, but no anxiety was felt.

MARJORIE RAMBEAU ILL WON'T HAVE OPERATION

LOS ANGELES, Cal.—Marjorie Rambeau, actress, who was taken from the train when she arrived from San Francisco, to a hospital, suffering from what diagnosticians said was appendicitis, refused to submit to an operation.

Penguins are very peculiar birds; they have webbed feet, their wings are stiff and fanlike and are used for swimming, while their feet serve as rudders.

IMMORTALIZING GOMPERS



Moses W. Dykaar, well-known sculptor, completes a bust of Samuel Gompers at headquarters of the American Federation of Labor, where the labor leader posed for it. The bust was made for the International Ladies Garment Workers.

PLAN ORGANIZATION TO REPLACE N-P LEAGUE

MINOT, N. D.—Formation of a new organization to replace the Nonpartisan league, into which all leaguers, laborers and so-called progressives may merge, was a plan evolved for consideration of precinct caucuses and county conventions at the Nonpartisan league conference here. In addition the conference recommended that the state executive committee call a state convention between October 15 and 25.

CONFESSES HE SLEW WIFE AND MOTHER AND CUT UP BODIES

Dismembered Bodies of Two Women Found in Field in New Hampshire

MEDFORD, Mass.—Nunie G. Tsekos of Franklin, N. H., was arrested Tuesday, charged with murder, after two boxes containing the dismembered bodies of two women were found in a field. The police said Tsekos had confessed that he killed his wife, Natalie, and her mother, Mrs. Katherine Adams, Saturday night.

According to the alleged confession, Tsekos quarreled with his wife and her mother at their home in Franklin over money matters and he declared they attacked him with a bat and a knife. He said he overpowered them and then stabbed his wife and cut Mrs. Adams' throat. He dragged their bodies to the cellar.

Sunday, the confession continues, he took his three children and was driven to Boston in an automobile by C. A. Clarke of Franklin. He left the children at his mother's home and returned home. Sunday night, he said, he went to the cellar, dismembered the bodies with a knife and put them in wooden boxes.

CYLINDER GRINDING

When a motor has lost its power, lacks compression, pumps oil, fouls its plugs, develops a knock or piston slap and consumes oil and gasoline out of proportion to the service rendered, it's a sure sign the cylinder needs re-grinding and fitting with over-sized pistons and rings. These conditions are caused by cylinders which have become worn out-of-round and taper. To overcome these troubles, the cylinders must be reground.

FORD SPECIAL—Ford cylinders reground and fitted with oversize pistons, wrist pins, bushings and rings, complete, $16.00.

All work guaranteed. Prices reasonable.

NEW YORK STOCK MARKET

NEW YORK—Selling of the oil shares in reflection of the gasoline price war in the middle west featured the opening of Tuesday's stock market. Producers and Refiners and Marland each dropped 1¼ points, the former duplicating its previous low price of the year. Copper lost ground as a result of the falling off in export demand. United States Rubber rallied 1½ and Burns Brothers A one.

Oils continued in supply, losses of a point or more being recorded by Pacific, Cosden, the Pan-American issues, Texas Company and Standard Oil of California. Maracaibo, Invincible and Transcontinental each touched new lows for the year. Rubbers were strong, United States Rubber first preferred rising 2¾, Goodrich 1¼ and Kelly-Springfield ¾. Weakness of French francs which made another new low for all time at 5.48c featured the foreign exchange market.

The closing was firm. Several specialties were bid up sharply in the late dealings, Dupont leading with a gain of three points. Standard shares also stiffened sharply. Baldwin rallied three points from the day's low. Sales approximated 450,000 shares.

CHICAGO GRAIN MARKET

CHICAGO, Ill.—After nearly a week's advance, the wheat market Tuesday showed a downward tendency during the early dealings. Some of the selling was said to be on the part of foreigners, but general buying showed less vigor than of late and a number of commission houses appeared to be expecting a reaction in view of recent continued upturns. Country offerings, however, remained small and bulls took the position that price setbacks would prove transient. The opening which varied from unchanged figures to ⅜c lower with September $1.00⅝ to $1.00¾ and December $1.04⅛ to $1.04¼, was followed by a material decline all around.

Rallies, which ensued, failed to hold. The close was unsettled ⅝ to ¾ to 1⅛c net lower, with September 99½ to 99⅝c and December $1.03⅜ to $1.03½.

Corn and oats reflected the wheat market decline. After opening unchanged to ⅜c lower, December 63⅝ to 63¾c, corn underwent a moderate general sag.

In the later trading bears continued to have an advantage with favorable crop reports from the central west more than offsetting damage advices from the southwest. The close was easy at ⅝ to ¾ to 1 to 1⅛c net decline December 62¾c.

Oats started a shade off to ⅛c advance, December 38 to 38⅛c. The losses later increased somewhat.

Provisions were upheld by the firmness of the values.

POTATOES

CHICAGO MAKING SUCCESS OF CIVIC OPERA VENTURE

Over Two Thousand of City's Residents Back of the Project

CHICAGO, Ill.—(A. P.)—Chicago has gone into the grand opera business, and after a year's operation, the financial statement shows that the city is making a success of it.

Backed by a regiment of guarantors, who are to be found in all walks of business, commercial, industrial and social life, as well as by the general public, the Chicago Civic Opera company has become almost as truly civic as a public library or a public park. The admission charged for performances, which is moderate and considered popular, though insufficient as yet to pay the full cost of entertainment, is the sole mark distinguishing the Chicago civic opera from other civic institutions with a general appeal.

There are 2,200 guarantors who stepped to the front when Harold F. McCormick and Mrs. Edith Rockefeller McCormick contributed their holdings to the then Civic Opera association.

It is now announced by Samuel Insull, president of the Opera company, that when the deficit for the first civic opera season, that of 1922-1923, was finally determined and made known, the guarantors responded immediately and unhesitatingly and fulfilled their pledges without demur.

Mr. Insull says: "Grand opera in Chicago thus has passed into a stage of civic grand opera, supported by as representative people as would be met by the tax collector gathering sinews for city government. The method of obtaining support closely approximates the municipal state subsidies provided operas abroad, the sole difference being that in Chicago a preferred list of taxpayers of all professions underwrite opera, while abroad, in many instances, financial losses are liquidated by general taxation."

SCREEN NOBILITY

Viscount Glenavy, titled English nobleman, has entered the movies as an "extra" in Hollywood. If he reaches stardom it will be under the nom de plume of Pat Annesley.

The peasants of Brittany on the north coast of France do not speak the French language. They bear a closer resemblance to the Welsh or Scotch than to the French.

Needed at Dances And the Sea Shore

(Aids to Beauty)

Here is a home treatment for removing hairs that is quick, painless and inexpensive: with some powdered delatone and water make enough paste to thickly cover the objectionable hairs, apply and after 2 or 3 minutes rub off, wash the skin and it will be left soft, clear and hairless. This treatment will not mar the skin, but to avoid disappointment, be careful to get real delatone. Mix fresh as wanted.

LIMITATION ON AIR ARMAMENTS URGED BY BRITISH EXPERT

Declares Time is Ripe for Serious Discussion of this Question

LONDON.—By The Associated Press.—Major General Sir Frederick Maurice, who was chief of military operations for Great Britain during the war, declares in an article on the increase in the air forces of France and Britain that "it is high time the question of limitation of armaments is taken up seriously." He says that the British government's recent decision to nearly double England's present air equipment meant a return to competition in armaments and that such competition is not likely to lead to improved relations between the two countries.

General Maurice emphasizes Great Britain's willingness to enter into a conference on the reduction of air armaments similar to the Washington conference on naval armaments. But for the present, he says, Britain must, out of self-protection, bring her air strength up to that of France. "France," says he, "is the only country which within the next ten years is likely to be able to consider seriously an attack upon England from the air. Today we are not in the most remote danger of invasion which comes by sea. Therefore, for the first time for centuries, the navy has ceased to be our first line of home defense, and that role has devolved upon the air force."

The Chinese Bride

In China a woman is little more than a chattel. When a Chinese girl marries, she becomes, not the mistress of her household but the servant of her mother-in-law. The men marry young, and it is the exception for a son to be single at the time of his mother's death. It is only when the mother-in-law becomes feeble and finally dies, that the wife takes charge of the domestic arrangements, and then only if she be the wife of the eldest son.

Thibet is the loftiest region of its extent on the globe.

STEARNS

Frank W. Stearns, Boston merchant and intimate friend of President Coolidge, is looked upon by many as the "Colonel House" of the new administration.

BASEBALL TO SOOTHE RADICALS OF YUCATAN

Organize Teams to Combat the Increase of Socialistic Tendencies

WASHINGTON, D. C.—By The Associated Press.—Mexican property owners in the Yucatan district are now organizing to oppose the increase of socialistic tendencies in the population there by instituting baseball teams. The idea is said to be that of giving the youths of the province some ideas about play and physical self-development.

As a first move, according to reports to the United States commerce department, the Socialist Resistance league, which is the organization promoting the effort, has bought 250 complete baseball outfits from the United States. In addition, a physical culture director has been sent to the United States to learn about the game as it is played, and booklets of rules and descriptions about it have been printed in Spanish.

Yucatan, from the beginning of Mexican troubles, has evinced constant symptoms of radical political activity.

Naturalists tell us that a caterpillar can eat twice its own weight in leaves in twenty-four hours.

TANGLEFOOT
Sticky Fly Paper
Tanglefoot catches the fly and holds him. Non-poisonous. Leaves no paralyzed flies to fall into food. Does not pollute air, irritate lungs or cover furniture with powder or oily spray. Tanglefoot is safe and sure. Sold by grocers and druggists.
